

Epiphany: A moment of sudden and Great revelation or realization. An epiphany can often come about due to some experience that may trigger the sudden realization. An intuitive grasp of reality. An illuminating discovery, realization, disclosure, or insight, a revealing scene or moment. A magic moment that impacts you and changes you forever. A moment that changes the lens through which you view your life. A Miracle of thought.
Knowledge to Awareness.

*“What we think,
we become.”
Buddha*

*Change the
Belief*

*“What is
not possible today
is tomorrow.”
L. Taekwon Lee*

This is a very important year. Evidently, it is the year of inevitable change.

My Intuitive Guidance states it is also the year of **“Epiphany Revolution”**.

The Enormous Investments made last year for so many of us in the areas of healing, becoming aware, making changes, re evaluating life, and the focus towards World Peace and thus justice to be served, has lead this new year the focus to change our Belief system. A Belief System that helps rather than diminish, so as to Ensure greater Harmony, Peace, Joy, Good Health, Long Life, Prosperity and Phenomenal Fulfillment are reached to the Pinnacle point in life.

The “GRATITUDE DIARY” by Melanie Spears, (I highly recommend writing in Gratitude and Dream Journals this year) states that on February 19th of this year, it is the Chinese New Year of the Sheep. Melanie also states that “The Sheep Brings harmony and prosperity, while standing for peace and happiness.” The first pages that flow is about the beliefs we have formed and the changes that must be made in order to bring us greater fulfillment in life. In fact, Neale Donald Walsch’s New Book titled

“GOD’S MESSAGE TO THE WORLD: *You’ve Got Me All Wrong*” is about the importance of our belief system, and changing it in order to serve us well. DailyOM Madisyn Taylor’s Article “Change in the New Year: A New Year, New You Wish” speaks of just that. Change.

Change is happening at a remarkable rate and it seems this year the world is about to realize just how important change is. How important our belief system needs to change. How Hope, Faith and Believing in the Impossible produces the most Remarkable Miracles.

Recently I came across certain websites that stated the 2015 Chinese Sheep/Ram New Year predicts ‘gloom and doom’. About not to get married, not to purchase a home, not to bear children. And the list continued!! I was left totally speechless. I could see how such wordings could place so much fear and sudden depression in people.

"The Power of your knowledge gives you the ability.....but then you were frightened and began to doubt, and so the power of knowledge left you and your ability disappeared.....Never doubt the power of your spirit, which is a part of Creation itself and therefore knows no limits of power.....Behold, there as a little bird that circled at great heights and sang, rejoicing about life, when a strong gust of wind came and made it waver. It then suddenly doubted its power to fly, plummeted down.....Therefore, never doubt the power of your spirit and never doubt your knowledge and ability when logic proves to you the law of Creation in truth and correctness....." (<http://www.fourwinds10.net/journals/talmud/talmud.pdf>)

Life is about feeling the freedom to be, to believe, to hope, to dream, to thrive, to actually feel alive. However, I also realize old beliefs that have no longer served us must now be released to make way for New ones that actually benefit us and truly bring fulfillment in our lives, to inspire us and motivate us, to help us thrive beyond our means.

Make it your special year to focus on what makes your heart dance. What inspires you? What motivates you? What makes you fulfilled? What are your dreams? Your wishes? Do you have Hope? Faith? What are your beliefs and do they still serve you well or are they out of date, ready for a new change? Are you ready for the good life? To Thrive? To feel Alive with every cell vibrating with joy, and good health? Are you ready? Because whether you like it or not it is about to unfold.....it is about time Light Love Goodness Prevails !!!!!!!!!!!!!!!!!!!!!!!

Dream big!!!!!! Visualize your deepest authentic desires of your highest good !!!!!!! Hold onto Hope !!!!!!!!!!!!!!! And know that All is possible All is truly possible what is for our highest good !!!!!!! I know this wholeheartedly with all of my whole soul.....My entire life I have watched Miracles

unfold in ways that are so profound, no words alone could describe. I have Experienced, watched and read endless Miracles unfold in ways that one would think how is that possible that cannot be possible. I have learnt from the wisest of souls that what is not possible today is tomorrow, what is been told cannot be CAN be and does happen, what one says its only a dream, another sees it unfold Miraculously right before their eyes, what is said is not possible does become possible. It is all a matter of changing our Beliefs.....our views, our thoughts.....most importantly it is those who Honour their heart and soul, and hold onto faith with all their might and hope, that they find themselves one way or another Embraced with Glorious Miracles.

It is through my revelation of experiences that lead me to fully understand the Importance of Focus, Solitude and Silence to connect with the Inner Self and Higher Sources for Contemplation, Learning, Awareness, Clarity, Realizations, Strengthening our Hope, Our Faith, Remembering our Desires of the Soul and Who we Truly are. For Epiphany to occur.

(Please note: depending on circumstances, situations, and individuals, Loving Encouraging Positive and Supportive 'Networks' are also highly Beneficial.) .

"Be all that you can be!" That is to say: Bring to a state of full expression all of the facets of the Potential—the unique Divine Spark of Creator Source—that exists within you."

"...One of the hardest things in life is feeling stuck in a situation that we don't like and want to change. We may have exhausted ourselves trying to figure out how to make change, and we may even have given up. However, each day offers us an opportunity to renew our resolve and to declare to the universe that we are ready for change.....It is difficult to understand, even with hindsight, how the choices we have made have added up to our current situation, but it is a good idea to examine the story we tell ourselves. If we tend to regard ourselves as having failed, this will block our ability to allow ourselves to succeed. We have the power to change the story we tell ourselves by acknowledging that in the past, we did our best, and we exhibited many positive qualities, and had many fine moments on our path to the present moment. We can also recognize that we have learned from our experiences, and that this will help us with our current choices...This inner shift may allow us to get out of the cycle we've been in that's been keeping us stuck.....end cycles and enter into a new way of being...."

Madisyn Taylor <http://www.dailyom.com/articles/2014/44989.html>

I myself have faced enormous adversity in life, but the hope and faith that was tested not once but a few times, has lead me to realize one valuable thing in life, I still have kept the faith and hope for in doing so, and

following my guidance the best I possibly could, even when at times I must say was not easy at all to do!!!!!!!!!!!! I find myself embracing Miracles beyond my 'fondest dreams'.

"You may have been wrestling all night long with what you thought was a devil, only to see by the dawning daylight that it's an angel, blessing you for sticking it out through the dark night of the soul." Unknown

"To Accomplish Great things, we must not only Act, but also Dream, not only Plan, but Also Believe." Anatole France 1844-1924

"Whatsoever ye shall ask in prayer, believing, ye shall receive." Matthew 21:22

The following Passage was sent worldwide 8th December 2014. I hope in adding it here will help remind us of the Extraordinary Power of Hope Blessings and Miracles.

".....we wish lessons or changes could be made in a way that we could trully fully be aware without having to be forced into them. I suppose sometimes we don't want to make the changes or we just for so many reasons things happen, that we feel it means we are punished or that we are facing karma or that we must change, and sometimes we just don't trully understand.....till we stop and suddenly all flows...." Para Kas

**Sometimes on the way to the dream
you get lost and find a Better one**

"One famous author once said that dreams may sometimes be like stars, you can try to reach them, but sometimes following them will lead you instead to your actual destiny, instead of the one that you envisioned at first. Sometimes on the way to a dream you will get lost,

and you will find a better one. Remember that even though you may not be where you want to be at the present time that as long as you remain a dreamer you will never be insignificant. Also remember that any dream that you have can never be too big, as a matter of fact, if your dreams don't make you scared chances are, you just aren't dreaming big enough. So work diligently, dream hard, get lost, dream harder, and find your own way to your destiny. True dreamers realize to appreciate each dream that comes their way because dreams are doors to their soul, and because dreams are the visionary plans for success and accomplishment in a person's life."

Sometimes the greatest dreams that come true are the dreams you never even knew you had

"Sometimes the greatest dreams that come true are the dreams you never even knew you had. It's about open-minded exploration. There are no wrong turns in life, only paths you didn't know you were meant to walk. You never can be certain what's around the corner. It could be everything, or it could be nothing. You keep putting one foot in front of the other, and then one day you look back and realize you've climbed to the peak of the most beautiful mountaintop."

Note: "The Sun: ...a symbolic representation of the Awakening of the Soul. It is the most powerful symbol of The Light, Universe, and Guidance. As one of the most powerful elements in the Universe, its symbolism stands for Inspiration, Motivation, Celebrations, Hope, Peace, Harmony, Success, Happiness, Vitality, Passion, and Excitement. The Sun has been regarded as the symbol of Faith, Luck, Strength, Joy and Possibilities. The Sun is the gift of life, and the heart of the soul often finds itself bathing in it to gaining clarity. For a greater perspective. Darkness allows the Jewel of Light to shine so bright, Illuminating our way forward to Spiritual Advancement." www.solancevoyagegallery.com.au
