Please note: some words that have an ending with 'ful' are not misspelled. I have deliberately spelt them with their ending being 'FULL'. This is to emphasize the importance and fullness and thus, Energy of the word. Since I have always associated "full" with complete, I find it at times not easy to read words that end in 'ful' because the mind sees it as incomplete. Although we are starting to learn the truth about the purpose of the English language, hence, its ambiguity and inconsistency in its grammar and spelling, I felt important to ensure the Energy to

certain words with the 'ful' at the end of them by spelling them with 'FULL' instead.

Examples: beautiful to BeautiFULL, wonderful to WonderFULL, grateful to GrateFULL and so on. Also note that there are words in middle of sentences or paragraphs that start with a capital letter. Again this is not a spelling error. It is to simply accentuate the importance behind the word, its energy or power.

“The intuitive mind is a Sacred gift and the rational mind is a faithful servant. We have created a society that honours the servant and has forgotten the gift.”

Albert Einstein

...Wherever your Heart is, that is where you'll find your Treasure.....you will neverbe able to keep it quiet.....You will never be able to escape from your Heart. So it's Better to Listen to what it has to say....or....we suffer terribly.....Tell your Heart that the fear of suffering is worse than the suffering itself. And that no Heart has ever suffered when it goes in search of its dreams, because every second of the search is a second's encounter with God and with Eternity....when I have been truly searching for my treasure, every day has been luminous, because I've known that every hour was a part of the dream that i would find it. When I have been Truly searching for my Treasure. I've discovered things along the way that I never would have seen had I not had the courage to try things that seem impossibleto achieve.....Everyone on earth has a treasure that awaits him....unfortunately...few follow the path laid out for them-the path to their Personal Legends, and to happiness. Most people see the World as a threatening place.....Heart...never...stop speaking....when... wandered far from....dreams....heart...sound the alarm...”

Paulo Coelho, *The Alchemist*

I had dreamed for so long in wanting to counsell Children and Adolescents because of my own personal experiences of what I have gone through. Watching my beloved older brother, Peter, what he was subjected to in life, and the Enormous love he showed my sister and I; I sharing an inseparable life with My beautiful Twin Sister, Christine for so long, Her devotional Love and Inspiration, and special abilities: gave me Extraordinary desire and deep passion to begin the stepping stones it seems now they were, towards that deep desire of the dream. It gave me incredible strength, sanity and motivation.

And so my journey began: Teaching, Counselling, helping, and participate in all sorts of Programs and Activities, for students of all ages, the hearing, hearing impaired, and those with various other disabilities. Primary, Secondary, TAFE and

Night Education included.

I met My first husband in 1989. I spoke about this dream of mine. He is the Blessing and the Angel that helped me dearly to this Amazing dream of mine come true. Through deep thought, creation, preparation and much love, in 1997 Adolescent and Child Counselling (A.C.C.) was officially opened. It was a most Precious Special time of my life. If it was not for Kurt I don't know if I would have ever been able to have begun this Special and Important part of the Historical Journey. Precious Soul Kurt with a heart of gold, THANK YOU with all of My Heart and Soul. I love you. In fact My beloved Soul Shona, Kurt's Sister, tried to have Kurt and I meet. Universe had already stepped in and surprised all three of us as fate unfolded. Her love and grace and My adoration for Kurt's family is deep (as is for all those I dearly love in my life).

In 2001 Adolescent and Child Counselling (A.C.C.) changed its name to reflect its own growth, becoming known as Australia Counselling Clinic (A.C.C), with Adolescent and Child Counselling and (an addition) Women's Counselling Services under its wings, to assist in the well-being, development and creative growth of the individual and family unit. I had dreams. Expansive dreams. Dreams of wanting to go further to doing my PhD and absolutely expanding the private practice. I wanted to be the best in my profession of counselling. I suppose I forgot I was already giving from the core of my whole soul all the best of me to helping others.

Phenomenal unexpected changes began to unfold along the way within my own personal life when I suddenly desired this search to find me. I thought I really knew until events began to unfold that lead me to begin to question who I am and the truth of life. And so my quest to find it began. For me it was the most terrifying, most challenging and frightening time of my life because it meant having to make some very intense changes. It was not easy for me. At the time I could not explain or thought anyone would truly understand why or for what reasons I was doing this.....

Back in those days of mine, School did not teach the truth of life. They were more focused in teaching lies, and in how to live within a controlled Matrix, let alone in how they tried to force me to believe things that did not resonate with me, or do things that felt so robotic. Now I understand why. Now it all starts to make sense. At the time though it was another story.

In my deepest fears and not knowing how or what to do to begin this Soul Quest, I made some of the most biggest mistakes. I often wondered in those times if there was another more harmonious and easier way of finding myself. Now I know yes, having gained enormous wisdom and knowledge along the way.

“You have abandoned the inner child in favor of intellectual concepts which are based on ignorant fallacies.”

Jesus Christ

“The Good News is that the moment you decide what you know is more important than what you have been taught to believe, you will have shifted gears in your quest for abundance.”

Ralph Waldo Emerson (1803-1882)

Along the way, souls that touched my heart, my soul, my life, or left footprints, ignited profound personal changes within myself and my views of the depth of passion of how to live life, that they opened special doors within the core of me to write, draw, dream and be able to take immense leaps of faith into the unknown. This lead Australia Counselling Clinic in 2005 to also undergo its own major change, thus a new logo and a name: Angelic Healing Services.

We are never alone for the existence of life is far beyond that which we were once made to believe, being only on Earth. But to know that we can have those on Earth from a more physical perspective, to hold our hand, comfort us, love us, guide us, and protect us, support us, Believe in us and in our Precious dreams, provide strength and inspiration, motivation and thus, greater strength and reason to want to continue to Progress forward.

Undeniably, my love ones are the backbone, my most Precious Gems, the core and huge part of this journey. My deepest gratitude to them all and my love immense. You are priceless beyond words. And I will forever be dearly Gratefull and Thankfull to each and every one of you. Including pets, Guides, Universal Realms, and Nature itself!!!!!! As well those that I am not able to see for so many reasons, and those that have crossed over to another Realm of existence (although I do communicate with some via spirit).

And so it is for this reason what I have written I dedicate to those that are my life. (*Please see [Acknowledgment Message](#) .*)

“The highest reward for man's toil is not what he gets for it, but what he becomes by it.”

John Ruskin 1819-1900

In that significant time of my life, and in over the years of contributing to the World, I began to evolve in ways that left me totally unimaginably astounded. And watching it in others brought deeper insight into wanting to learn, to start finding forgiveness in myself for the things I had done and some of the choices and decisions I had made out of deep fear, and most of all it forced me to question my depth of faith and trust in the Universe, let alone in myself. A deep journey filled with much love, light, tears and joy, challenges, tests and lessons, peace and most of all harmony.....

"Once we accept our limits, we go beyond them."

Albert Einstein (1829 - 1955) German Physicist

"Faith dares the Soul to go farther than it can see."

William Clarke

"And the day came when the risk it took to remain tight inside the bud was more painful than the risk it took to blossom."

Anas Nin

It is through Angelic Healing Services that I Trully began to learn the true definition of Growth, Evolution, Enlightenment, Awakenings, Universal Laws, the depth of Adversities one faces and the Incredible Strength and Determination with Hope to get through them, Dreams, and the Truth of Existence on Earth. It

is with such great Honour to have had the privilege of running Angelic Healing Services and watch the world unfold from a far greater perspective as well as within myself, gaining a phenomenal amount of knowledge and Wisdom along the way.

In 2011 Otto Vetter and I met. It was not planned. We both hoped and prayed for many things, and suddenly, one afternoon both of us were guided to go for a walk at Merrick's Beach in Victoria, Australia. We both had guards up and every wall imaginable surrounding us when suddenly, upon meeting, for a moment all the fears and walls just dissipated. The Love, the Peace so harmonious that Light shone to every corner of our Souls. It was the most Extraordinary experience.

“In the span of a single second, our lives can change as energy moves at a pace more Rapid than anything we can fathom.....our lives can change immeasurably.” Such a change “can transform our lives in a blink of an eye.”

Madisyn Taylor, DailyOM.com

We began to share our knowledge about life, love, our resources and networks, our vast experiences, wisdom and insights that we gained along the way over the years prior, and the awareness. Together we began to walk this next part of the journey. But those defenses and walls of every level also decided to go up; our protective barriers. However, regardless of our deep pain and past

heartache, we continued with determination to work on our healings and forgiving ourselves, let alone others. And We were determined to step outside the domains of the “Matrix” that life was forced unto life itself for lifetimes. The Ultimate Goal: to remove ourselves from the limitations, control and slavery that no longer served us or Life itself.

In 2012 Angelic Healing Services went through what is called a major “Cosmic Explosion”. I unknowingly embarked on a path that lead to the Birth of Sòlance Voyage Gallery, transforming Angelic Healing Services in a way that was a Total Surprise. It was done by both unexpected known and unknown forces, as well forced upon the whole path. Angelic Healing Services, its Essence, its Morals and Values, and all that it stood for was passed on to Sòlance Voyage Gallery to continue and Expand on its horizons.

Upon our journey together with Sòlance Voyage Gallery, it was not easy. It meant having to clear the cobwebs and bringing light to the corners where darkness lurked within our own hearts. Much likening it to the metaphor of scrubbing the ‘gunk’ from a pot to bring the shine back. Many times I wondered if we were able to achieve breaking our own let alone each other’s walls down in the whole process of setting ourselves free from the Matrix. But then suddenly two unstoppable Phoenixes began to Emerge and come to life!!!!

Extraordinary levels of Stamina, Hope, Intense Faith, Phenomenal Courage, Strength, Determination and Perseverance, coupled with fully grasping the definition of Enlightenment and Immense Devotion, was required. Otto’s most

beloved dog became one of our most precious Guides. She played a Major Key role in both of our lives. Zoe had the most Amazing Big heart both in her Personality And Physically!!!!!!.....We still hold her dear to our Hearts.

I count him braver who overcomes his desires than him who conquers his enemies; for the hardest victory is over self.

Aristotle 384BC-322BC

Sòlance Voyage Gallery is a True Incredible Blessing for both of us. Something I never had Trully envisioned. It has changed both Otto and me forever. The Awakening Richer, Deeper, Significantly more Meaning**full**. Otto and Zoe Vetter I love you both soooooooooo much. I thank you !!!!!

Time, as we know it at present, has Great Significance to why and how things unfold. We may not understand ALL of life's events, but those we do, we can Fully come to Appreciate the Meaning behind it all. I suppose the key is learning to be able to forgive ourselves, to authentically and honorably learn from our past experiences so that we are not repeating them selfishly with no regard for those we hurt whom we deeply care about; facing our fears and insecurities, and going deep within the core of our hearts to find our core soul essence of who we really are, and our soul's purpose. And of course to love with all of our Hearts, and Embrace the true life with Peace. We owe it to ourselves.

Living in the pure bliss of the moment, in our own space and connection with our

inner Divinity is deeply significant as well very important to our path. Sometimes this is not easy to do in the midst of an adversity, but that moment of stillness, this meaning of silence, that moment of going deep within, to the core of our hearts, to our sacred place, our dreams, our essence, and connect with Nature and its life forms, to be in the present moment, trully can perform remarkable
Miracles, Magic and unfoldings.

Although Sòlance Voyage Gallery has led us on a deeper transformation journey that I had never anticipated upon its birth!!!!, it has only just begun it's own personal journey. With love ones and beautifull pets, Rainbow Lorekeet Maxi and Magical full of Love Cat Cloe, a part of my life, and my deep love for nature makes My Heart so warm with so much Love and Smiles, excited for what's to unfold beyond the horizon.....

Upon this part of the journey I found a sacred path so Special. LOVE has a diverse levels of meaning, and yet the one I speak of is that that warms my soul to deep peace within. It can be that pureness of love a pet, a blooming flower, the ocean, the dew on a leaf or grass, the blue sky, the sun, the stars, the oak or maple trees, seasons, a child, a love one, a soul, of quiet time, of nature, of the Angels and Guides, of the Divine Source of Pure Love and Light.....diverse yet of such Pure True Sacred Enrichment. It has offered me the True Grace and great Respect to be able to walk with more Harmony in my Heart, more understanding and to hold the Essence of this profoundness as a realization of the true definition of love. It is like a flower and its ever lasting fragrance lingering in the
core of my soul.

“Your task is not to seek for Love, but merely to seek and find all the barriers within yourself that you have built against it.”

Jalal ad-Din Rumi

I do not know where this journey will end, what destination it will find itself, whether by fate or destiny, or simply choice. What I do know is this:

“Sometimes the greatest dreams that come true are the dreams you never knew you had.....paths you didn’t know you were meant to walk.....one day you look back and realize you’ve climbed.....the most Beautiful Mountain top.”

[_http://www.vibeenglish.com/sometimes-the-greatest-dreams-that-come-true-are-the-dreams-you-never-even-knew-you-had.html/](http://www.vibeenglish.com/sometimes-the-greatest-dreams-that-come-true-are-the-dreams-you-never-even-knew-you-had.html/)

“At some point.....we realise that we have Embarked upon a path. At some time we know Immediately, other times we look back and the pieces fitting together into a Woven whole.”

Randy Compton, The Insight Story™ Card Set Guidebook for Insight

“One famous author once said that dreams may sometimes be like stars, you can try to reach them, but sometimes following them will lead you instead to your actual destiny, instead of the one that you envisioned at first.....”

We search for what is missing in our lives, only to realise it has always been embedded deep within ourselves, and right under our noses. We may have run for so long afraid to open our souls, fearing the essence of feeling for whatever the reasons it has been associated to. How is it possible to acknowledge our own worth, the beauty of our own existence, and the gratitude of Blessings to embrace if only we are able to do is be paralysed with fear? It is ok to have this feeling yet another to impede on our growth, to breathe the core of life. This gives one not the chance to stand still for a moment from running, just to truly see that they are in fact safe and it is the mere experience itself that has left them not wanting to embrace. Sometimes our belief system can control us manifesting that which we in our souls know is not what we want. Sometimes the numbing effect as a result of

fear that has had such a profound impact in our lives, results in not being aware of what we can indeed embrace with joy, peace and Grace.

Let silence take you to the core of life. Jalaluddin Rumi

“I am that I am, I am thee, I am thy, I am neither, I am either,I am that I am, I am the sea, the land, the stars, the planets ...I am the trees that grow with depth towards the Heaven above ...I am heaven and earth, I am the Angels, the fairies, the elves, and I am yin and yang ...numbers and compassion... compass and water. Thee I am, thy I am, neither thee, neither thy... I am that I am, I am Para Kas with a passion to guide thee and thy soul to graceto evolve to their Highest statethis and with God yes, I am that I am.... I am one with God thee and thy.

I am that I am. I am Love I am Light I am Life and Harmony, but I also know in this Awakened world.....amongst those who choose to hurt and destruct..... to ensure I Honour my vows to my destined Own Truth..... and for my cries and the depth of pain that comes from the core of my soul to be heard.... I am also thus thunder, lightning and the storms, I am the hails and the earthquakes, heavy rains, and fiery tides of the oceans. I am the tornados and the hurricanes, the meteorites and roaring fires, the cyclones and winds, the dust storms and blizzards, the frost and icebergs too.

Yet also gentle enough I am to quietly be heard, I am the dew and the drizzle, the snowflakes and mist...I am the Rainbow and soft wind, the humidity and Twilight too. I am the sea breeze, the soft clouds, the Sun heat and the fog.....I am that I am, I am thee, I am thy, I am neither, I am either,.... I am that I am, I am Para Kas who wants what is my Birthright to be and to have: Harmony Peace, Love, Health, Long Life, Fulfillment of the Soul, to Live the Fullness of its Purest Source, and share it with those who believe in the same form.”

“Art and words play a significant role in restoring our faith and bringing light into our lives, inspiration, hope and joy to our souls. For me art is an expression of my own Soul, whether it be in my writings, a drawing, painting, photography, paper crafts or other forms of creative inspirational arts, including gardening. I love Flowers and watching gloriously them grow. I love to do more of art and craft variations which include materials, as well sculpturing. That is something I am working also towards.

Being Creative brings me the opportunity to deepen my connection with my Inner Soul, Universe and Life. It motivates me in the process of healing, brings great clarity where there was darkness, is the voice of my own Being, Soul, Heart and Mind. For me Art is also a form of language from a Higher Source- The Universe.”

“Discover your true impulses, not those that an artificial social belief and value system has forced upon you, but those that are truly your very own and unique impulses, you are here to fulfill in this incarnation. “....New discoveries are constantly Emerging that challenge what we thought we previously knew. And so every now and then we come to paradigm shifting realizations that alter our perception of what it means to be human, what we are capable of, and what the true nature of reality is.”

I have had the privileged of observing, assisting and working with Professionals, children, adolescents and parents. I attended and contributed to Welfare and Discipline Committee meetings and School Programs for Disruptive Adolescents, and conducted extensive study into the psychological disturbances that affect children's behaviour in various environments. I assisted in the study, assessment, diagnosis and treatment of communication disorders in children with differing levels of literacy and hearing impairments. I also observed and designed Programs and activities, and applied them in the assessment and treatment of speech disorders in children with impaired hearing.

We wish we could always be able to protect children and adolescents from the stress of aversive life events, but they can be provided with the skills necessary to cope with these events and rise above life's adversities, providing them with knowledge and positive social and adequate problems-solving skills, as well find meaning and understanding in life. They simply need to be made aware of the availability of resources and services to them, to be well informed about and educated in issues that will have or has an impact in their lives.

Some of the most prestigious associations/organizations I have had the wonderful opportunity to be a member of on my journey included.

Australian Childhood Foundation (Former: Australians Against Child Abuse); Children's Protection Society Inc. ; Anglicare Parentzone (Victoria); Inner Peace Institute of Wellbeing; Centre for Grief Education; Australian Counselling Association (ACA); Australian Institute of Professional Counsellors; Australian Association of the Deaf; Specific Learning Difficulties Association of Victoria; Australian Psychics Association APA; Mathematics Association of Victoria; Mental Health Foundation(Victoria); Association for the Welfare of Child Health; Psychotherapy in Australia; Australian Family Association (AFA); The Australian Psychological Society Ltd (APS) and Australian Holistic Healers and Counsellors Association (AHHCA).

My experiences also expand to include Tarot and Numerology, Crystal Healings, Psychic Readings; Art classes within the educational sector and private practice; and Wholistic Counselling.

My great Passion for Numbers and Tarot, among other amazing Divination tools available out there, gave me an extra initiative to gaining an even deeper insight into my own personal life, my soul, my own true existence of life and journey.

I am still yet to learn so much more over many matters on Earth and about what my truer deeper unlimited potential and self is all about. I know that the more I learn created from the catalysts, experiences, knowledge or wisdom gained along the way, as well from my own thirst, the more it changes, transform or replaces my old belief systems, and evolve the knowledge or perspectives of life and of myself along the way.

I am still learning and still growing..... Not only am I a teacher I am a student

as well..... The purpose of Questioning is to learn to understand.....although the most powerfull way is to go deep within In the pureness of silence.....

“You aren’t doing this to impress anyone; you’re doing it for you.”

“Opening our awareness is an ongoing process. Every time we unfold one aspect of our lives, we begin to see possibilities for further expansion. An opening that may feel like the ultimate breakthrough at one point may later be seen as simply the prelude to the next miracle...and then the next, and on and on. Our potential for growth never reaches an end....No matter how far we evolve.....”

Jacob Liberman (“Take off your glasses and See”)

“The more life I experience, the stronger is my conviction that having an open heart is the most beautiful and powerful thing one can achieve. Having spent many years seeking knowledge and reaching academic goals, this profound truth was somehow concealed. Yet now I firmly believe that knowledge no matter how rich and vast can never stand half as tall as the strength of the heart. In history, there have been numerous enlightened masters, gurus, saints and spiritually evolved people whose knowledge of the world was at best fair. Their true power, inner peace and contagious charisma came from their heart.”

The name:

The Name

“SÒLANCE VOYAGE”™

SÒLANCE

SÒLANCE was conceived in 2012, inspired upon our travels, by a name 'Solace' on a gate (Coast of South Gippsland, Victoria, Australia).

The creation of the word SÒLANCE is a combination of:

The letter N (14) where our interpretation of the alphabetical letter in numerology stands for Love, Comforting, Natural Elements of Healing

and

The significant meanings of the following words:

- Sòl
- Soul

- Solar
- Solar Master (Guide)

- The Sun.

The word SÒLANCE *'thereafter' (to our awareness)* is recognised as a word and or name and has become widely used in many forms. This gave a wonderful opportunity to provide further definition and accuracy thus of what we stand for:

"Solance, known ...for.....compassion, wisdom and sense of justice proved time again....."

<http://scarteleu.wikia.com/wiki/Solance>

"The name of Solance creates a happy, versatile, and expressive nature, with good business judgement and a fine sense of responsibility, which should enable you to establish congenial relationships in positions of trust where you are dealing with the public. You have a clever, quick mind, with the ability to accomplish a great deal in a short period of time..... This name could allow expression along musical and artistic lines and gives you the desire to entertain and to meet and mix with people of refinement and culture. It also brings out your love of home and family, and in close association you are able to show understanding and affection. Others are attracted by your generosity and your consideration of their interests....."

On the 1st of October 2016, whilst in deep thought of our beloved special Angel Dog Zoe, who would have been 17 years old at the time (she passed away on the 26th May 2014 unjustifiably from reckless irresponsible actions of certain lost souls that took her life), something remarkable happened.

Upon contemplating and deeply guided thoughts of the major changes occurring worldwide and the deepest desire to update the logo, without thought, I focused on Arch Angel Gabriel when suddenly I wanted to draw something from the core of my soul with full of love. Upon completing it Otto sees it and suddenly in Awe says "The Logo". I was left totally lost for words. I had not thought about it nor realized what I truly drew. Only time earlier I had written a reading for us, to see where our next part of our journey would take us. And there was this moment unfolding, unaware of it at the time. And to my biggest surprise effortlessly I simply resonated immensely with the thought and followed through. And so the New logo was born on Zoe's Birthday.

Incredibly Zoe means LIFE in Greek language. Life. And with that a new beginning a new logo.....

Feather

Feathers are ways that Spirit sends us signs.

Ancient people from different cultures such as aborigines, egyptians, celtics and the native americans believe that birds and feathers carry stories, mystical meaning and even magic. The reason why people of many native cultures wore feathers on their head, its because they saw it as a sacred connection to God the Creator.

When you look at a feather, you will notice that there is a shaft running up the centre of the feather (the white part that looks like a stalk) . Well this shaft is hollow - so the idea is that the person's prayers go upwards through the hollow shaft to the Creator - and then his blessings come back down to you through the same orifice, which acts as a channel.

Feathers also represent truth, love, protection, new beginnings and rebirth. There is a strong celestial connection to the spiritual realms.traditionally a positive omen that your calls have been heard and answered.

A Cosmic Hello Receiving a feather sign is a magical moment. It is a mark or trace from the higher realms, a physical sign to express to you that your higher consciousness is connected and co-creating with the universal mind of Spirit.

Feathers have ethereal qualities and come to you as sacred gifts from heaven. They fall on your path as a sign from the Divine, sent your way in order to comfort you and place you in a state of joy and higher awareness. Spirit is showing you that you are on the right track and reminding you of your celestial origins and deep connection to your heavenly home beyond earth.

Their fruits are indeed a royal treasure - a culmination of esoteric riches. To eat of this fruit is divine. To symbolically eat of the fruit of a tree is to absorb the most precious understandings of life. Taking in the tree symbolism is like taking the nourishment of the fruit - we become **one with the core** manifestational wisdom, and from our new perspective we develop into something altogether different, fresh and divine.

When delving into the nuances of tree symbolism, our resources are vast. There is no limit to the psychic data we may accumulate for the purpose of diving deeper into the understanding of the symbolic meanings of trees

It is the Tree of Life and Knowledge, a magical key to how life manifests itself.....The Tree of Life is considered to be the symbol of 'Creator'.....The meaning of the 'Tree of Life' is very powerful and it is often seen as the Key to Consciousness.

Spiritual Gifts: Meaning of the Tree of Life

Tree of Life - Rooted in the Earth - reaching for the stars...!

The Metaphysical meaning of the image of the Tree of Life is simple... You are a child of the Universe.

- You have the right to exist
- You have the responsibility to grow to be yourself

The Tree of Life can be thought of as your own Cosmic Family tree, telling ancient stories of your shared roots which link you to the past, showing your connected struggles and aspirations; your desires to reach for the Light.

The Tree of Life crosses all cultures because the Ancients could see trees close up all of the time... the symbolism of the sprouting seed, growing into a trunk and branching off, sending out smaller branches and little twigs, to see what they may accomplish.... The Tree became a common symbol, then, of life, ancestry, mythology, lessons of the spirit, history, lineage, and hope for the future... and climbing to the heavens.

In Metaphysics, we study the messages of the natural world as explanations for the spiritual... science, religion, philosophy, and mythology then merge in our understanding.. All things effect all things... and we become more open to the Light of the Divine Understanding - the goal of being unique while a part of the Oneness which we spiritually seek.

Trees may look the same, especially when they first begin - but they grow, thrive, change, are battered by storms and weather, become broken and, as they age, become very unique. They become as we all wish to be, *Individuated*. A Metaphysical spiritual process whereby we become our own unique self and therefore fit right into the niche where we are needed and meant to be. It is a part of the Ascension process.

All of us are physically inter-related and the Tree of Life symbolizes this, as well.

Like an enormous *family tree* the symbol of the Tree shows the roots and branches - where we have diverged and where we have joined. It shows where we come from and who comes from us.

Tree of Life carries the meaning that we are related to the Cosmos - to our human family - our animal family - our earth family and our beyond-the-earth family.

All of the Cosmos is inter-connected - DNA and chemicals link us and it is in this sameness that we find compassion and tolerance and it is in our differences that we should find wonder.

Para Kas

Upon Embarking on a *J*ourney of True Awakening, Enlightenment, Illumination, little did I know at the time that I would be faced with the most Profound challenges that have changed me forever. The “Expansion of Consciousness”, the deep Awareness in the process of “A Revolution of the Soul” has transformed my life completely on all levels as I’ve never imagined.

Upon Reflection I can truly say now, it has been a “Divine Experience” in all its Aspects or forms. Of course at the time I surely did not think so, nor thought it was necessary, important, or significant, thus rebelling and sabotaging at every cost, and hence forced to have to learn the hard way.....

Looking back at my life, the choices and decisions I made, all the trials and tribulations, the enormity of adversity I faced along the way and the profound lessons I had to learn, has shaped me into the person I have become today,(unless it helped me to remember who I am) and the journey that took me to be where I am today.

There were times I did wish that I knew what that lady, who read my palm when I was in primary school, saw. I realise today that even her facial expressions are now regarded as ambiguous language. Maybe what she saw was Amazing and I just did not have the proper earth guidance and influences, support and knowledge to know what steps to take. I simply took steps and it took me to the far ends of the darkest corners of my own world. My own self.....and from there I began my Soul quest to find me to find truth to find true life. And suddenly I began to listen.....and was lead out of the darkness and into the Light.....to see the the truth of Love Light and Soul Harmony.

Maybe If we were taught the truth of life, and there was Peace on Earth from the beginning, I surely know I would not have needed to go on such a Soul Quest, nor make or face such debilitating experiences. Maybe if the support was different, or fate/destiny was written or created differently.....maybe is a word that really cannot fully compensate or help in knowing what I did, what I had to with all that I knew, to finding myself. I would say sometimes depending on the individual and his or her circumstances, a journey is made of a path of stepping stones and cross roads to help define us and help us remember the true authentic life, who and what

we are, and also importantly what the true meaning of life and value of life is all about. I can see that was denied or taken from us on Earth for all sorts of reasons. I am so happy to know that Light and Love always wins and finds itself back 'home', in whatever home may mean or represent to each person.

My views, my morals, my values, my beliefs have either evolved or transformed. I cannot exactly say which for in essence both have played a remarkable part.

Am I the same person? I don't know if that is really a question. I would say I have become more deeper and my authenticity of what I hold true plays a far greater role now than what was expected of me by the "old world patterns" that no longer hold true, fit or serve my Higher Self, or true worth.

"I had never even thought for once that the world I once lived in would be filled with misconceptions, distortions, manipulations, deception, or untruths, let alone would have been a part of it, and if so, was made to believe it was "normal". In fact who would dare to think or believe for one moment that life was any other than how we were made to believe, taught, brought up, or exposed to."

Through my own journey and in guiding and healing others, I have seen the most amazing Miracles unfold When we follow our True guidance, we receive that which our Heart and Soul dearly yearns and desires that's for our highest good. One valuable lesson I have learned in life, Acknowledge your own feelings and emotions for without doing so, you are not honouring your own soul. Emotions play a key role in how life unfolds. When we spend most of our time not acknowledging and listening to our body's emotions, feelings, we are denying ourselves the true existence of life. For without our soul there is no life. So please listen to your inner truth, Honour your true self, your true essence of your being.....

Over the years children have inspired me to extend my creations, particularly in the area of writings to also include children books filled with the opportunity for them to grow, to guide them, and to be surprised.

I also along the way embarked on another part of the journey leading me to utilize my imagination in the most extraordinary ways. And doing so I took courage to

write beyond my limits and fears in many other aspects of life, covering a versatile and extensive range of topics.

My love for writing, art, and photography of nature itself, has brought much love and light to both mine and the hearts of many worldwide. My passion for art and photography of certain essence brings back the innocence of what being a child is all about, the freedom to feel free from the limitations that are placed upon us, and the innocence of what life ought to be all about, to be able to appreciate and respect its true wonder of again, and embrace once more the true meaning of life.

There is definitely Something Magical about immersing ourselves, even if it is for a moment, doing something that is soul fulfilling. Something we are so deeply passionate about that stirs our soul positively. I am left totally astounded Every single time when we simply, in the midst of any form of adversity, just go deep within ourselves and immerse in something that is truly beautifully connected to nature, creative or meditative. The sun begins to shine to the crevices of every element of our Being.....and Miracles unfold in such An Extraordinary Surprising way.....

We ALL have our Own Journey to partake within the Grand Universal Plan..... the Moral of Life is to Live it Authentically with the most Deepest level of Peace, Gratitude, Love, and Respect for ourselves, those around us and our surroundings/environment. I understand why most of us are doing all we can to make this very possible. And why also thus also going on a Soul Quest to do so. Others creating every possible solution for such a Life to live. Because when there are those that would do anything to create war, disharmony, division, and chaos, and anything negative, it is not easy to be able to live such an authentic and harmonious life, because we are faced with the battles to fight the darkness. I smile at the thought that all it takes every single time is to know that a single light can trully light up for many many miles where there was darkness.....

My great Passion for Numbers and Tarot, Crystals and other amazing Divination tools available out there, helped in gaining an even deeper insight into my own personal life, my soul, my own true existence of life and journey.

Believe with all of your heart... . Know your Own worth.....life is so precious. HOLD ONTO HOPE Believe Miracles do happen for Real Faith makes the impossible becomes possible, that which is for our Highest Good, and in ways that leave us Astounded!!!! Hold Close to your Heart what is precious to you, for that which ignites your heart is so dear to you, and motivates you. Those Precious Treasures of your soul are felt dreams, you never know when they might just unfold and in what way.....especially when you hold onto the Hope so True and so strong.

May you be guided and protected and Great Blessings on all levels enter into your Life.....

It was when I was left so battered on the ground of nothingness and being in complete darkness, for what I felt endless time that I stopped fighting the Universe. It was when I was so incredibly tired and exhausted, no longer my Soul desiring or willing to take my next breath of life, that I stopped going against the current believing my way was the best and only way, fearing and blindly walking ahead with no concept of the 'greater picture'. It was when the world was against me from every turn I took that I just stopped.... We have been made to follow, to do something a certain way, instructed and taught to express our authenticity by limitations and removal of our uniqueness. To become the 'norm'.

When I was in school, I still remember when I was asked to use my imagination a certain way in order to write something. Literature. English.

The first moment I was asked to do this in school I was ecstatic!!!!!! And so I did write something using my imagination with great innocence and naivety. I had no idea back then that I was SUPPOSE to be a norm, limited and controlled in my thought patterns of creating with love. I had no idea that there were rules to expressing my true authentic soul and from the pureness of my Heart. I was woken up about what was actually going on in the conventional educational system when I began to be faced with ordeals that to this day leave me grateful. For doing so led me to actually doing just that STAND IN MY OWN TRUTH of expressing my own authentic self.

Anyway here I was writing what I thought was a master piece. And with so much pride and joy I handed it in. Little did I know at the time what would eventuate from that 'masterpiece'.

When the teacher returned the marked homework it was saturated with red ink, comments covering the whole 'masterpiece'. I was TOLD how not to create, how not

to imagine, how not to feel, how not to express my creative self. I was totally confused. So how was I suppose to create if I cannot the way I feel so deeply drawn to do so from the core of my soul?

The teacher was going to teach ME!!!!!!! How I was going to create using HER imagination. The conventional system way. I was totally confused and lost. I had no idea how I was suppose to feel. I really wasn't even sure what the purpose of my own being was.

It was my epiphany. A realization of what I was experiencing in a conventional educational system. How do I tell my parents? All they thought about was the more I studied the better my future would be. Little did they know coming to Australia that their way of learning was different here. I had no one at home to talk to. If I did not do well at school it was my fault, and I was not trying hard enough. I would rebel and even that would cost me.

So along the way I had to think of a strategy to get me through. I thought if I pretended to be part of the "norm", it would be the only way I could make it through and try to keep the peace at home. But this norm pretending did not last long.

It is a joke these days the English language with so much ambiguity that one begins to wonder its deliberate or lazy creation of a language that causes more confusion and misunderstandings, and thus conflicts than any other language. If you take note you will be amazed just how ambiguous the English language is. But that is another topic of conversation for another time.

So here I was been told how to use my imagination to write what the teacher thought was a masterpiece. My God if half my friends, who are amazing creators, followed such teachers, I am sure to have never seen their Spectacular Creations that touch souls in way that makes you heart dance with so much joy and Inspiration.

Anyway so here I was been told to pass I had to supposedly imagine a certain way the teacher thought was acceptable to pass. Hello what about me? Para Kas. Me don't I exist!!!!!!!!!!!!!!!!!!!!!!

Well I think that is when I began to rebel a little more.....ok maybe a lot during the times of when I was in the Conventional Educational System.

Sadly I had to copy a piece from some old book I found and handed it in. A boring, structured and mundane creative piece of writing. I did not know what to do and I had to do something. However, for years thereafter, I felt such enormous guilt that I spend most of my life trying to forgive myself. Amazing what we do to survive. I knew I had to begin somewhere. Well the teacher loved it so much she put it in the

school magazine!!!!!!!!!!!!!!!!!!!! Her pride got the better of her, showing off with such ego that she taught me how to create. Little did she know what I would do next to shatter that egocentric status of hers.

I still recall when I was in Melbourne University, it was called something else back then, God knows what it was such a long time ago. In Physics I was asked to do a research that meant 6 months in the lab with some technology. Have no idea what it was on. I only remember spending endless months in that lab doing this particular research that was a major part of the grade towards the end of year report. 6 long months.

A beautiful friend, to whom I still am close to to this day, did not do her research. She asked for my help. Of course I did not give it another thought. I was more than happy to help her. And so I utilized my own work and manipulated and made up all these numbers and wrote her report!!!!!!!!!!!!!!!!!!!! I made her report all up with what I thought would coincide with my report. Remember my report was based on real facts. Hers was not!!!!!!!!!!!!!!!!!!!! I did it the night before it was due!!! copying from my own 6 months research. You would not believe what happened next!!!!!!!!!!!!!!!!!!!!

My Beautiful friend receives an A and I receive an F!!!!!!!!!!!! That was when I began to see what they were teaching students!!!!!!!!!!!!

My beautiful friend felt this was not at all right and so together we confronted this lecturer. Bright red and foolish this lecturer looked she could not even speak. She stood there stunned as we looked at her in total disgrace. She did not correct her ways. Nor re-assessed my 6 months research report. Instead she wanted me to sit in the exam and get full marks. At the end of year exam, in front of so many students I sat there looked at the exam, and then got up to leave. She demanded I sit and do the exam. I knew I had the right to sit there for 15 minutes only to read it. I looked at it and thought what would this gain? I knew the research report was worth the most marks. So 15 minutes of reading was up and then I got up and gave the blank exam to her.....Basically in front of all I simply told her you were a waste of my time. Of course the end of year report went home and I could not explain to my parents why I failed Physics. Instead I got into a lot of trouble and had to repeat some subject to make up those lost marks.

Biology. Same thing. I did all the homework, all the research, and in a group (a team) to which I was allocated, the group all copied from me!!!!!! Word per word. But this Biology teacher would fail me and pass every other member of the team. What an example she set for everyone!!!!!! Eventually it was reported to the Board at the University. Thereon in first year of University she simply gave me D's whilst everyone else passed with flying colours. Her reason, it was because I had the same copied information as the others. The interesting part, I had the same as every other member of the same group. In other words **everyone in the group had the**

same work, but clearly I was the one only copying. Mmmmmmmmm

Again I had to try to explain to my parents why I did not get good marks in Biology also. Again I had to sit though a whole summer studying a subject to pass. I wonder what ever happened to those teachers and some of those students for that matter? If they learnt to live an authentic life or not?

Anyway, back to what I was talking about regarding my use of imagination in secondary school. Here was I been told in secondary school how to express and write imaginative writings.

Then came the exam. I sat there and looked at the whole exam paper. I asked myself how I felt about it all. I looked at the questions of the imagination and literature section and at that moment I had to make the most important decision of my life. I was thinking how can I pass if I really don't know how to think the teacher's way. I took a massive leap of faith and with phenomenal courage I decided to honour my own authentic self.

And so I wrote from the core of my own soul, using my own imagination and creating from the depths of my own Heart. You know it was flowing so magically for me that I could not stop writing, even when it was time to finish the exam. Something happened to me that made me realize how much was suppressed within me. A whole gate of wonderfull ideas flooded through that there was no stopping me.

In fact after I handed in the exam I went home and secretly wrote more and more.

Funny part is the teacher had to pass me because of the enormous amount of pages I wrote that day in the exam. In class she told me to never do that again and to use the imagination the way she taught me. Little did she know I was not ever going to do that again. And I never did listen to her again. I simply refused.

When I began Year 12, the Year 12 Coordinator told my mum that they were planning to fail me. I still remember my mum saying to her, classes had not even begun!!!! Conspiracy? Who knows. But not long after Mum removed me from the school when my parents could see how I was struggling the school closed down.

It was a very challenging time trying to fit into a new school half way into the year. Of course at the end of the year I did not sit for most of the exams. I did not pass. And Amazingly my parents encouraged me to do Year 12 again. And what an amazing College it was!!!!!!!!!! Back then it was part of a bank building in Albert Park. There was no school grounds. We had the freedom to go wherever we wanted as long as we turned up to class. That freedom did not leave me astray. I studied with so much joy and looked forward to walking at a massive lake across the road. I

would meet friends and close love ones for lunch and even played certain sport activities with other friends from the College at the arena next to the lake. It was in a big shed J. My parents' trust in me helped enormously for me to excel.

Don't get me wrong I had a lot of challenges in my life at the time, but the most amazing thing was the outcome. I was able to use my imagination and write and create and be.

I became a Math's teacher, a Teacher of the Deaf, a Counsellor, a Spiritual Teacher, a Healer, A Tarot and Numerology Teacher and Guide, a Writer..... Photographer..... an Artist. The list began to excel in ways that should have began in the Conventional Educational System. However my creative pursuits of Expressing my true authentic self gave me the life skills to also cope in such a challenging world.

Along the way I learnt there is no right or wrong way. There is only 'soul' way. We all have our own unique techniques, method or way. The tools are meant to be taught in a way to be able to help us utilize in finding our purpose in life, and discovering our own individuality. To explore our own uniqueness; to express our TRUE authentic self; to feel motivated, inspired and soul fulfilled; to hence be able to share that with others with purpose to inspire motivate and help.

I hope with all of my heart and soul that you dream and imagine, create and excel, believe and truly stand in your own truth. For it is such souls that we need to make this world a more colourfull, inspiring and Better world.

Much Love Para Kas

Combine this with calmness of voice and presence of serenity that surrounds her whole being. When first meeting Para you can't help but walk away feeling blessed to discovering what is so special about us all. She certainly leaves you with the feeling of peace, vision and strength to continue the journey. Truly a joyous soul to cross paths with, her warmth remains long after the meeting. Leave expectations at the door and enter Para's world.....she will quickly help you realize that it's your world too. Many thanks and best wishes for Para's future and all that get led her way."

"I have been to see Para on a few occasions over the last 2 years. She is the most wonderful person one could have the pleasure of meeting, she welcomes you with Open arms, Love, and Peace. She doesn't even have to try, she just makes you feel so comfortable in her presence, she is such a beautiful soul. She has helped me so much with her gift, she has been very accurate every time, and is always helpful with any questions you may have, and is always very respectful. I highly recommend her services without a doubt. I referred a friend to her, and she was also amazed at Para's gift, and how accurate she is."
Robyn Maynard Victoria

"Para Kas is one of the most talented psychic/medium/healers as well as a psychic artist i have come across. I have about 4 of her drawings all are breathtaking. Her heart and soul are put into her work as you will see when you get a drawing done off her. The one that she did of my husband and i (through the eyes of Para) well it's heavenly. I never saw myself in the way that she drew us, but i know it's me. She always draws the beauty in any of her clients whether they see themselves as beautiful or not. You will understand when you see your own pictures. I wish Para all the very best in ALL her achievements and hope you all enjoy her work as much as i do."
Paulene Cregan NSW

"Para Kas has proven to many as well as us and family and friends of ours, how accurate in her psychic/mediumship as well as her tarot readings are. We can only admit to anyone who asks about her and her abilities how amazing and true to her word she is. A true gift from Heaven."
Pauline and Andrew Cregan, NSW

"Para Kas is amazing! Never before have I had such amazing readings with anyone

else. Para's insight and ability is extremely accurate and her readings are very empowering and awe inspiring. Para is more than just a spiritual healer, she is an angel, a precious soul who has given me the tools to change my life in a way I never thought possible. I am so grateful to Para and feel truly blessed and honored to have Para in my life. Thank you precious beautiful Para”.

A. Taylor, Victoria

“I first met Para about three years ago when I went undertook some counselling sessions with her. I was dealing with some heavy personal issues at the time, was lacking in confidence and had really low self esteem. Since that first meeting I am glad to say that with Para’s guidance, support and encouragement, I have made many positive changes in my life and developed in so many ways that I never thought possible. Para challenged me to question perceptions and limiting beliefs that I had held onto steadfastly for many years and that most importantly did not serve me anymore. I am definitely much happier now and have a more positive outlook on life thanks to her help. While Para may have started out as my counsellor, I have been fortunate enough to experience first hand many of her other talents as well, such as tarot reader, crystal reader, angel intuitive and numerologist. I have always found Para, to be very professional and amazingly accurate in her readings. She has this way of making you feel special and you never want the sessions to end because she creates an environment of such love and peace. Para is an honest and genuine soul, who uses her very special gifts to bring light to the lives of others.”

Christina G, Victoria

“I consider myself to be privileged to have had the opportunity to receiving readings from Para whatever form they come in, whether through tarot, tealeaves, crystals, mediums or a combination of various methods. I find Para to be very accurate. She goes that extra mile and continues to find different angles to ensure that you understand the message that is meant for you. Sometimes the message does not make sense when delivered but later you have an experience and then know exactly what she did mean to the point where you are left saying wow! I have been blessed to have had Para as a spiritual teacher as she has given me the opportunity and confidence to grow spiritually. She makes the class feel at ease with one and another where anyone can asks a question and you do not feel ridiculed. She allows each individual to develop at their own pace and makes everyone feel comfortable with their own achievements as we were all at different stages of our spiritual learning path. When conducting her classes, Para is very professional and remains true to her profession by accessing all her spiritual resources, providing excellent notes and taking on board any request or recommendations to make learning the content easier. Furthermore, you experience her enthusiasm for what she does and see for firsthand her psychic ability”.

Vicki B. Victoria

"My husband and I both had a reading with Para Kas in August 2008. In the weeks since the reading, her guided words have already made a difference in our lives and our marriage. Para was incredibly sensitive, intuitive and positive. She brought us peace and healing with her loving and generous spirit. Her guided advice was practical, constructive and incredibly accurate. If you are feeling lost on your path, I pray that you will contact Para - she will lift you up more than you can imagine! Para is certainly one of God's very special messengers here on earth. Much love and blessings"

Karen Taylor Victoria

"Finally we have found Para!! After years of counselling, psychology and therapy, I finally found Para. Para helped me more in one reading than all my years of therapy. If you are living with any depression, if you feel lost or confused, need guidance, or would simply love some inspiration, I urge you to have a reading with Para. So much of our heart ache is a soul ache and Para can help you sort it out. She is an angel on earth. If you are reading this then it is meant to be and you are blessed. Do yourself a favour and have a reading with her. It will change your life, it will give you direction and it will set you free!! It is a incredible blessing to come across someone so wonderfully gifted and special. She brings hope and abundance. Thank you Para from the bottom of my heart. It has been life changing meeting you!"

Jodi Victoria.

"For years I have fluctuated with spirituality and Belief with sometimes being a believer and at other times just being. I grew up with my mother and aunt being clairvoyants and always knew of the other realm but sometimes wished I didn't. After my reading with Para she changed the way I lived for she gave me answers to what no one else could. I am now trying to listen and be guided instead of the one trying to drive. Now if only my ego would let that happen? Thank you Para, for you have given me great peace and I now find that I am more on track now for knowing what no one could have ever told me."

Dane Victoria

"Para's readings have helped me access my own intuition and have empowered me to influence my life positively".

Kirsten Vic

"Para Kas, Angelic Healing Services: This name says it all, healing services from the closest thing to an Angel that exists on this Earth. I have known Para for a number of years and have had the opportunity to have Para assist me with her messages from Spirit. They always arrive at the most opportune time and have always been totally accurate and totally meaningful. I have also had the opportunity to work with Para on various occasions and have been astounded by her humble and caring nature. The total connection that Para has to her Guides, and to Spirit are truly

amazing to behold. If you are fortunate enough to have been led to this inspirational soul for guidance then you have been led to one of the very best that there is available. There are not words enough to show how special Para Kas really is, when you seek her guidance for yourself you will know why that is so."

Neil Hanel NSW

"If you lose sight of your path, are looking for answers or are even sceptical, you will truly be amazed by Para. I was referred to Para through a friend and Para is a true Angel. In my first reading with Para, she managed to break down my walls and provided me with the guidance I needed. Since that first reading, her continual guidance has given me so much hope, insight into myself and my life and shown me a place that I call 'where dreams come true'. Para is very caring and patient with her guidance, even when you have a moment, are stubborn or do not want to see what is in front of you. She is a genuine earth angel and having her in your life, is a true blessing."

Pas, Victoria

"Para has taught me strength - to value my own worthiness how to manage my life when my judgment becomes blurred to re focus - get back to what I have learnt. I read & re-read all the messages she sends to help me on my path in this life so I come through the dark tunnels on the way. Recently I was not coping with the day to day - another soul was taking my energy Para guided me to go back to where I was strong & to be my strongest & wait for the gifts of life to unfold. I did this I am now stronger than I was before. listen & believe."

Karen G, Vic

"I met Para when she was working as a Consultant with Mystic Dragon. My first impression was that she was an extremely intuitive and caring person. As I got to know her better I was impressed with how generous she was both with the amount of time she invested in helping people and in how knowledgeable she was in so many areas. A numerology report she prepared for me was so detailed and presented with so much thought and care that I still treasure it and refer to it today. Para naturally draws people to her. She is a natural healer, counselor and her photography is brilliant. I recommend her highly. "

Shirley Nicholls (Spiritual Teacher) Victoria

"Para's numerology report provides insight into past life information which works in conjunction with my present life, providing detailed explanations why my life is exactly as it is and what it is I need to work on along my life path and true purpose. It is incredibly reliable and revealing, but most importantly - healing and helping me changing and "pushing through the line". I feel very blessed and honored to have met you personally in a wonderful Self-Love Event and through your informative numerology work. Your caring way to assist people with your unconditional love brings light into this world. Thank you for that".

Love always, Petra Elbl Victoria

"Para Kas of Angelic Healing Services created and hosted an event called 'The Self-Love Event' on Sunday 29th June 2008. It was held at our Inner Peace Centre in Doncaster East. Her intention was to promote the book 'Am I Going Mad?' and explain the unusual phenomena sometimes associated with spiritual evolution. This she did brilliantly. As part of the package, Para supplied a taped 20 minute reading for all participants who attended the event, and was kind enough to also do one for my husband, Michael Carroll and myself – the author of the book. I can recommend Para Kas as a highly competent reader."

Marlyse Carroll, Managing Director, Inner Peace Australia Pty Ltd, Victoria

"Over the last few years I have had several spiritual readings from Para. Her readings have proven to be incredibly accurate. She has truly helped me gain clarity within my life and through her guidance allowed me to heal on a deep soul level and find complete inner peace, which I had never thought possible. I have recommended Para to many of my family members and friends and they too have come away with much clarity and peace. I highly recommend Para to anyone seeking guidance and clarity within their lives."

Tracy M. Vic

"I have known Para for 2 years now. When I first met her I instantly warmed to her fun and loving nature. I was also very impressed with Para's readings. They are all spot on and the messages she has given me are always with love. I now have my readings via the phone as I am Sydney. They are just as good and the connection as strong. Para is a very special angel and a delightful person. "

Pearl Sydney

"I have been talking regularly to Para for the past seven months and have found her insight extraordinary helpful and optimistic. She has helped me redirect my energy and focus into the things that are really important in my life, and has predicted with remarkable accuracy the way in which things would unfold for me. This has been incredibly useful in terms of maintaining a positive outlook as well as choosing all the things I want in my life and helping me to achieve them. She has made me look at life in a completely new way and I really cannot thank her enough."

Tessa, Vic.

"Para Kas provides the objectivity, insight and inspiration required of any medium. After a consultation with Para, one feels sufficiently enlightened, motivated and empowered to conduct their life as it is destined."

Adrian F. Vic

"When I first meet Para I was impressed by her intelligence, knowledge, artistic ability and spiritual capabilities. Her generosity and kindness make you feel special."

I always contact Para before making any big decisions or business decisions as I have found her to be very accurate with her advice. Para is truly my real life guardian angel, once you meet her she is always there for you."

LT Vic

"Para is a beautiful person and one who knows her stuff. She provides a very warm, caring, safe environment in her readings. Para makes you feel special. Para goes that extra mile, if she sees you don't understand she tries other ways to explain things to you if something comes to her after your reading she will follow through with a phone call, something I have never experienced before. Having Para in your 'back pocket' is like having a solid wall to lean on, she is 100% there for you. Para has many dimensions to her work and is also a beautiful artist, often drawing portraits of things that only she can see. I can't recommend Para highly enough, she is my adviser when my way forward is cloudy."

Ellise Victoria

"I was totally amazed with my "Para" experience. Her accuracy, predictions and her knowledge of me and my life was astounding. This is one truly gifted lady. Thank you Para."

“Awakening the Soul” book

Welcome

“Art is an expression of my Soul, whether it be drawing, painting, photography or sculpturing. It inspires, motivates, heals, expresses, brings joy, clarity, and is the voice of my Being, my Soul, my Heart, and Mind. For me it also is a form of language from a Higher Source...the Universe.”

For as long as I can remember, I loved writing. I would spend my days and nights writing for hours, poems, storiesI would also spend many hours with my camera taking endless photos, mostly Sunsets with ocean views..... Photography has been a passion of mine for many years. As a Spiritual Healer, the opportunity and potential to capture such a Beautiful moment acts as a re-vitalising agent to my Soul.

When I showed my photos, writings and poems to others, it would spark a start of their own journey onto something their heart and soul yearned for. It brought them just like for me, also hope, inspiration and guidance. This brought about a catalyst that began me on a journey in anticipation and eagerness, to one day produce a book filled with love and light, hope and joy, peace and clarity, wisdom and so much more. Little did I know at the time that I would one night find myself woken begin that thought so strong. It lead me to begin a journey I never imagined.

We all need love, support, guidance, hope, strength. We all need companionship, laughter, and fulfilled dreams. We all need harmony, peace, and acknowledgement, to freely be able to and with expression of our emotions without fear. I know that I also have an inexplicable desire to always want to connect with Universe/Higher Realms.....

Upon initially embarking on this journey, I honestly either had no idea or was ignorant to want to know that doing so meant facing the deepest awakenings along the way, immense sacrifice, losses and some of the most unjustifiable challenges. Many times I wanted to get of the path I found myself on. But remarkably every single time it was a particular photo that kept telling me to hang in there, to please not give up. And Incredibly this colored textured paper I am typing on!

Like music, art and words play an extraordinary role in restoring our faith, bringing us hope and light, inspiration and joy to our hearts and our souls. Life is so precious. Once in a while it just takes a few words or some form of art, to inspire and motivate us, to truly help us back on track, to allow ourselves to courageously walk forward in life, to see clearly again. Sometimes a bump

on the road causes one to trip, stumble or fall, Universe sends us Angels to just touch our hand, say a warm gesture, a reminder of who we are, to effortlessly jump up so high saying what was that? A stumble? To teach us lessons, to look where we are walking and to help one grow wiser, stronger and lighter.

I don't know why this one particular photo would have such a Profound affect on me. Every single time I wanted to throw the towel in and not complete my passion, the books, because of the heartache along the way, this one photo found a way to fill my whole soul with enormous hope beyond words..... And here I am realizing I am finalizing the last of the first set of 27 books, to which in fact is the first book I began my journey upon

The truth is that I do not remember where and when exactly I took the photo. It was such a very long time ago now. But the photo would always make me feel safe, and fill my Heart with Hope. Somehow it was Home for me..... And it gave me strength to carry on.....Remarkably I think always of the 12 Apostles at Great Ocean Road in Victoria, Australia.

I recall a time when I was living at Flinders, Victoria, Australia, a flash of a past life there. I was sitting on the beach on some rocks and suddenly I saw myself in a very long ancient looking dress, and married to a sailor, and all I can recall is seeing myself living high on a hill with ocean views, and seeing an old ancient sailing ship or boat and the waves in full motion. There is more to the story, but I often wondered about the photo that kept me going, and the flash remembrance of a past life.....

Regardless, the photo has been my hope, my strength, my guidance..... I wonder if finalizing this last book of the first set, that was the first book I first began this journey on, means something significancetime will tell.....(Funnily, everywhere I go I always see signs of ‘The Last Supper - The 12 Apostles’ from the Biblical story. Let’s hope it’s not my last supper on earth in producing to the world the first set of books, fulfilling a Promise.)

May this book bring you a level of peace and harmony into your life and into your heart and soul as it has for me and those close to me.

12th July 2017

Guide

I dedicate this book to

Paulene Cregan

You sure have a way with words, with how you bring joy to my World. You know what to say with Truth, I Always

Smile with Delight, so excited to see you. Enchanted by your Aura, Your Love, You Always know how to make things Bright in my Life. Goddess you Are, True form Of Life, I love you and part of my life you Always are. I love you, A Blessing to have you in my life.

A special dedication to Paulene's husband Andrew, and her love ones, including her children *Jade and Daniel, and Grandchildren.*

"The plan to change the world is a very multifaceted approach, for this is not something that can be done alone, it has to be something everybody does together, and not only "does together", but does it willingly, joyfully, and lovingly!

You see, in order to change the world, we must live differently than we have in the past. We have to stop seeing ourselves as consumers, we have to live instead as creators. This of course, takes education and practice, and those are the two pillars of this creation."

My Art journey:

Upon reflecting the journey thus far, as I am updating (2017) the website I am amazed looking back how many dreams have truly come true. We don't realize this at the time, and sometimes it takes years before we realize how some heart felt dreams or wishes do in fact come true, and my goodness in ways that leave me constantly in awe of how the Universe and Life truly unfold.

I have invested many years counselling, guiding, teaching and healing others, including myself. Doing so has lead to a profound discovery and realization. Music,

Art of various forms that touch my soul, and writings of deep meaning play a remarkable role in restoring our faith, bringing us hope and light, inspiration and joy to our hearts and our souls.

For me Art is an expression of my own inner Soul, whether it be drawing, painting, photography or sculpturing. It inspires, motivates, heals, expresses, brings joy, clarity, and is the voice of my Being, my Soul, my Heart, and Mind. A form of language from a Higher Source...the Universe.

For as long as I can remember, I loved writing, taking photos and molding with clay. I would spend my days and nights writing for hours, poems, stories and in my journal. I would carry my camera everywhere taking endless photos. I would find whatever opportunity to also work with clay.

Photography has been a passion of mine for many years. Back in those days I had film cameras, and most of my life I used a Cannon EOS 500. Imagine everything taken using Film. Now Imagine phenomenal number of films, sometimes carried in bags, to be developed only to be surprised with what was developed. In those days there were no digital cameras. Either that or I just was not aware or interested for that matter in digital cameras. It has only been recent that I was introduced to a Digital Camera by my husband Otto. It was an experience in itself as I discovered a greater element of the definition of the word "Creation".

My smiles were eagerly waiting for the films to be developed so I can see on paper the results of what was captured with the soul...I was Always surprised...Whilst nowadays the opportunity is, at times, missed because of the technology of having to focus on which setting you need to place it on, to take the photo, those days it mattered not. The photo was taken and the moment captured in all its form.

Although Writing and Photography has been a well embraced experience for me for many years, Painting with Oils and drawing has always been a constant desire to do till one day it came true. Art. It has always stirred my soul with extraordinary delight. Like a child so innocently excited over some of Nature's Magical Brilliance, I was always fascinated how Artists who painted with Oil Paints, Soft Pastels and Graphite or Charcoal, produced the most unfathomable Master Pieces that touched my soul to the most extraordinary depths.

For many years I watched my Twin Sister draw and oil-paint the most Phenomenal Art pieces. I was left in total Awe of her magnificence of what she would produce on paper and utilizing her imagination so profoundly. I was constantly left totally enchanted by the experience.

One day I walked into a soft hearted room of a home filled with soft pastels. I began to deeply cry from the core of My Soul. I was left Spellbound as I found

extraordinary familiarity in their Essence. I have seen them before. It was one of my most profound turning points of my life of Awakenings. From then on all I could think of was those soft pastel drawings and their familiarity, even though I had never seen them before. All I could think about was also the remembrance of past life experiences and distinct smell of the familiarity of oil paints.

I began to daydream...I began to visualize. Little did I realize at the time I was actually, what they call , Manifesting, drawing with soft pastels, drawing with charcoal or graphite and painting with oil paints. I made a wish to be able to paint and draw.

One morning I was woken up from a book (I had bought on art that was placed on an easel bought for a gift) fallen on the floor. The sound so loud that it surely took my attention. It was opened on the floor to a page with an article titled "Start to Draw"!! I bought white art paper, lots of it, graphite, pencils, charcoal, erasers and a sharpener, and books on how to draw and so I did begin to draw.

One night I thought of those soft pastel drawings I once saw. I thought 'I wonder if I can do something like that?' I just thought to try. Little did I know how truly the path would have unfolded to where I am these days. With some soft oil pastels I began to draw "Heartache of The Soul". It was how I felt at the time. I was in such deep grief and pain over so much and was left amazed I even had motivation let alone strength to do anything. What was starting to unfold suddenly brought a glimpse of hope for me in my Heart. I was left totally amazed as to what I was able to draw.

From that moment onward the excitement grew!! so much so that I Miraculously was guided to attend a Visionary Art workshop using soft pastels run by Wendy Ishewe. What unfolded thereafter was astonishing and began me on the journey that I always dreamt to be on one day.

I drew in the workshop what I titled "Solar Master ". I was thrilled!!!! I was left totally speechless that I actually drew it!! I was also so happy to know that finally I was understood. Finally I was able to produce on paper what I could feel, see, dream , vision, and channel intuitively. The following day I bought lots and lots more art paper, and lots of soft pastels and that afternoon I drewand drew..... and drew.....months passed by and I drew and drew and drew so much so I was left totally astounded by the experience of what I thought was only a dream. Thereafter, I attended more of Wendy Ishewe's Amazing workshops.

Then suddenly I stopped. All I knew was that all I wanted to do suddenly was write. And so I did writeand write..... and writetill one day I just began to think about oil painting.

I did not know where to begin. I never painted nor knew anything about oil paints. I knew how to daydream and visualize painting with oils but to put into practice was simply I thought just not possible. So I thought!!!!!!

To my surprise my twin sister called me one night asking if I would be interested in her oil paints and easel, and most of her art items. Of course with such joy I responded "YES!!!!!!!" I was so excited!!!!!! Suddenly I had a room full of all that was required to paint with oils.

With great confidence at thinking how simple it would be to paint now that I have everything I need to paint, with such tender care I delicately picked a white colored canvas savoring every moment of it as if it was the most expensive canvas in the world, and began to paint with joy to my soul. Of course I had no idea what to paint unlike with soft pastels that most of it was channeled or imagination utilized. So I just picked colors and added it to the canvas with no thought of anything. What came out was the color brown!! No matter what I did to the art piece what color I painted with, the result was brown. I could not understand. It looked easy when my sister painted with color so how come for me it all turned brown in color? You can imagine my sudden optimism and joy was replaced with a dream it can only be. Of course the Universe was not going to give up so easily on me!! So there I was suddenly in a room full of Art items and all I would do for months was just admire the room and visualize painting with oils.

A year later a dear friend was moving and asked if I was interested in some of her oil paints and brushes and so forth. Of course again my excitement rose and I said yes!!!!!! Then I asked Universe for guidance on how to paint with oils.

One day on a drive I noticed a board outside a home. "Oil Painting Classes" was written on a blackboard in chalk. I was totally surprised and the guidance. I did not take the number down. I thought ok now I know where to go when I am ready. However I completely forgot where I saw it days later as I tried to recollect my bearings of that day when I was actually driving for inspiration purposes. Months later I realized I was ready. I asked Universe for help as to where this board was that I saw the words "Oil painting classes"? And so guided to the board I was!!!!!! I took the phone number down and that same day made enquiries. I booked my first 9 weeks classes with Wendy Smith at Merricks Victoria Australia. I never looked back.

It took ALOT!!!!!!!!!!!!!! of Oil Paints let me tell you. But I loved it. Ok A VERY!!!!!! Expensive item mind you considering what it took to have the brown turn to some colour at least. HEHEHEHE

The most funny part of this story is when she was teaching me how to paint with oils. She first asked me to do one in black and white to learn of the different shades of black and white. I had to paint it upside down so that the focus was purely of the shadows and light. You can imagine my excitement when it was turned the right way up!!!! I was left so joyful over seeing what I had painted!!!! It was a dream come true.

With so much joy when I went home I made some changes to it with confidence without Wendy there to help me!!

Then I was asked to do one in color. Wendy Smith chose again a photo from a magazine for me to copy. Again her intention of asking me to paint it upside down was to teach me the color perspective of the different shadows and lights of color, rather than focus on what I was actually painting. When it was turned the right way up I was so overwhelmed I was jumping up and down in the classroom hugging her with so much joy. The first color oil painting. I titled it "Remembrance". It was of a soldier.

Then for my next piece I was asked to paint something else and I could choose whatever I wanted to paint. Well I did and I began to paint..... "Para what are you doing?" Wendy asked puzzled. "I am painting" I reply confused at her question. "But why are you painting it upside down?" Still confused at her questions I replied "Because you told me to". You can imagine her expression when she thought oh no that is not what I wanted to teach you. "But Para that was only wanting you to understand shadow and light...." It was something like that..... "But I cannot paint any other way"

She tried to teach me to paint it the right way up. I tried but as soon as I got home I looked at what I did in class and was not at all satisfied. I thought of my Twin Sister Christine, and thought of wanting to give it to her. And so i began to repaint the whole art piece on the same canvas starting all over again, only this time doing it my way. I placed the photo upside down and began to paint. It was so easy and everything flowed. I did not think about what I was painting. I simply only saw the shades of colour. Well what do you think happened when I turned the canvas the right way up? !!!!!!! Ecstatic beyond words!!!!!!!!!!!!!!

Of course i went into class and everyone admired the piece I did. Wendy was so proud of me. The comments: It looks like the photo. With a smile on my face in gratitude I say: " I did it upside down!!!!!!!!!! " Don't ask how Wendy's face looked hehehehe, and so my journey began.....with such phenomenal joy of knowing how to paint with oilsand the only way I could was for them to be upside down. I am sure Wendy would be thinking if only I did not teach her to do them initially upside down she would be painting "normal". I giggle at that word. What is normal these days anyway? hehehe.

Let not your doubts limit you to believing you are not capable of what you believe in your heart is possible.....for I have learnt over my journey the endless wishes and dreams that have come true are a results of manifesting, believing, praying, holding on to hope, following guidance and intuition, daydreaming and visualizing, and knowing not only of my worth but that it serves my soul and thus those around. What unfolds does come true. Sometimes it takes longer. Sometimes there are lessons to be learnt first. Sometimes other pieces of the jigsaw puzzle need to put into place. Sometimes it comes in a different form. And sometimes it just takes us by surprise.

What am I Manifesting now? Sculpturing of Angelic Realms, Drawing and Oil-Painting Horses and Trees, and playing the Piano. And lately "DiVinci" and "Michelangelo" have been popping into my thoughts and dreams more constantly for a long time. But do you know what has most amazingly suddenly afterwards begun to unfold?

Everywhere I go, whatever books I began to purchase, and what I have begun to

notice doing more frequently relates to ALL ABOUT FLOWERS!!!! How to paint them, grow them, understand them. Every guided sign, all about Flowers. And the most incredible part about this new journey about flowers is.....for the first time I began to actually take note of their Miraculous Magic, seeing them in a way I never ever really thought to or imagined I ever would.

I thank my husband Otto Vetter for helping me to become more aware of the meaning of the word Flowers. He is not a fan of cut flowers as he prefers watching them flourishing in the garden or pots. It actually changed my whole perception of flowers, bringing deeper meaning of their essence in a way I have never done so before. Since you should see what I am like whenever we see pot plants and in the garden. The funny part is not that it is soooooo Romantic when Otto takes me to places just so I can purchase more flowers in pots, but that if the cash is in his wallet HE RUNS!!!!!!!!!!!!!! hehehehe

Flowers have trully touched me in a way that leaves me speechless. I spend endless time looking after them as best I possibly can and when we see blooms I feel so alive like a little soul jumping up and down as if Santa has just given me a whole bag of surprise presents.

I have no idea what The Universe has planned for me next in terms of my artistic and creative endeavors, but what I do know is it surely is a total surprise as I am lead the way.

Lots of love Para Kas

Tarot has been used for many centuries, as early as 16th Century, in gaining a deep insight and understanding of the Spiritual World, the Soul and the Meaning of Life. It is a powerful tool used for guidance and direction, self-realisation, discovering the “unconscious living” (what we are manifesting and hence creating), and most importantly seeing an overall picture of one’s life as it appears “now”, and becoming aware that we are in fact, in control of our own destiny.

Tarot is used as a “channel” between the Spiritual World and Earth existence in providing valuable messages, for personal growth and healing, confirmation and reinforcing what we already know. Through Tarot we discover that direct “future” events are a result of our own manifestation, and enable one to become Master of our own Destiny. Tarot helps one able to make the appropriate choices, decisions and action to make positive changes in their lives.

Insights for the season:

The "Spiritual path of reuniting with the Divine Self" is a "Homecoming seen as intensely powerful to Native thought". It's a "Soul's Journey Home". Along the journey home there is abundance of "Insights into" the "True Identity" as one "leaves a legacy" behind. Whilst "Rapid and Profound changes in human and planetary evolution" are unfolding, a "revolution" and a "revelation" of the souls are occurring.

"Many of us are familiar with the experience of waking up to the fact that our lives are no longer working the way we have set them up. Sometimes this is due to a shift occurring inside ourselves over time, and sometimes it is part of the larger shift that is currently affecting all humanity.....many old ways of planning out a life are no longer applicable....If we are in tune with the energies around us, we will begin to question ideas that just a few years ago seemed sensible....."

“The Transformation of our character is more revolution.... the realization that you are a different person than the one who began the journey....changed....forever....”A Revolution of the Soul”.... “The Journey itself will change you forever-not only your priorities but your passions. It alters not only your direction but your desires. It transforms not only your actions but your values. It is nothing less than leaving the fake for the real. There is great risk in abandoning the artificial in pursuit of the authentic. Yet if we’ve never known the real thing, its easy to understand why we are mesmerized with the best versions of the limitations.”

“When you awaken, what disappears is your interest in maintaining a consistent ‘image’....You are awake, You are alive. You are indefinable. You are life. Nothing else matters. Every image of ‘you’ gets incinerated in the furnace of presence. You are no longer afraid to speak your truth.”

The good news is that the stimulus has reached critical mass and we are entering a period of rapid and great change — a period of great transformation in ourselves and our world.

will always guide you in the direction you need to travel... From birth we are blessed with wisdom that cannot be learned or unlearned....it is a gift given to us by....Universe before we chose to experience existence on the earthly plane...It is when we do not use our inborn wisdom that we begin to doubt our personal truths and are driven to outside sources of information because we are afraid...recognize the power of ...<YOUR> wisdom."

“The truth you cling to makes you unavailable to hear anything new.”

Pema Chodron

“A lot of people feel threatened if they feel they are being asked to question their

cherished beliefs or their perception of reality. Yet questioning is what keeps our minds supple and strong. Simply settling on one way of seeing things and refusing to be open to other possibilities makes the mind rigid and generally creates a restrictive and uncomfortable atmosphere. We all know someone who refuses to budge on one or more issues, and we may have our own sacred cows that could use a little prodding. Being open-minded means that we are willing to question everything, including those things we take for granted.

A willingness to question everything, even things we are sure we are right about, can shake us out of complacency and reinvigorate our minds, opening us up to understanding people and perspectives that were alien to us before. This alone is good reason to remain inquisitive, no matter how much experience we have or how old we get. In the Zen tradition, this willingness to question is known as beginner's mind, and it has a way of generating possibilities we couldn't have seen from the point of view of knowing something with certainty. The willingness to question everything doesn't necessarily mean we don't believe in anything at all, and it doesn't mean we have to question every single thing in the world every minute of the day. It just means that we are humble enough to acknowledge how little we actually know about the mysterious universe we call home.

Nearly every revolutionary change in the history of human progress came about because someone questioned some time-honored belief or tradition and in doing so revealed a new truth, a new way of doing things, or a new standard for ethical and moral behavior. Just so, a commitment to staying open and inquisitive in our own individual lives can lead us to new personal revolutions and truths, truths that we will hopefully, for the sake of our growth, remain open to questioning."

Speak Up

I'd rather get over my fear of what someone might think of me than ignore something that could change the quality of life on this planet for everyone.

Kimberly Carter Gamble (www.thrivemovement.com)

"Our lives begin to end the day we become silent about things that matter"

Martin Luther King Jr

" Everywhere in our world we are now seeing the [awakening of humanity](#)

speed up. We are seeing massive rallies against corruption and rallies for peace spread. We are seeing tyranny, cover-ups and false flags exposed. And more importantly, we are seeing movements converging that offer solutions to these issues the world faces. People's inner worlds of heart and mind are breaking free and we are seeing this have direct and positive impacts in our outer world."

Dr. Kathy Forti, clinical psychologist

"All that was great in the past was ridiculed, condemned, combated, suppressed — only to emerge all the more powerfully, all the more triumphantly from the struggle."

Nikola Tesla

"There are two ways to be fooled. One is to believe what isn't true; the other is to refuse to believe what is true."

Soren Kierkegaard (1813-1855)

"During 2016 more young people and old people, inside and outside world governments, will speak the truth with greater energy, greater clarity and less fear than ever before in human history. And their words will be heard, preserved and multiplied beyond the reach of establishment suppression. They will tell of many things from their own personal experience. They will tell of Earth changes to come and they will tell of Earth changes past."

The Importance of the word "CONSTRUCTIVE"

"It has become apparently clear that there arises confusion in a lot of articles that simply are aiming at reaching the same goal of World Peace. What one person expresses another states that it is regarded as negative or judgement. The important factor to note here is that the common goal is to express the truth of importance with having the intent to do so in "a usefull or" with "beneficial purpose" so to create world peace, and within ourselves; to bring the truth out to the world so that all are able to live a more authentic and truthfull life." Of course we need to

ensure that any word that is used that may be negative is "constructive" so as to reach world peace both outside and within ourselves. This goes for actions as well."

Para Kas

How the word **CONSTRUCTIVE** can change something that may appear or come across negative with a positive purpose.....

Commenting : express an opinion or reaction

Criticizing : indicate the faults of (someone or something) in a disapproving way; form and

express a judgement of

Sarcasm : the use of irony to mock or convey contempt

Judging: form an opinion or conclusion about

Viewpoint: a person's opinion or point of view

Opinion: a view or judgement formed about something, not necessarily based on fact or

knowledge

Now place the word "CONSTRUCTIVE" before each word of the following words and it actually changes the whole meaning.

CONSTRUCTIVE :

having or intended to have a useful or beneficial purpose; that is intended and useful to help or improve something, often with an offer of possible solutions

Constructive Commenting: having or intended to have a useful or beneficial purpose with the intent to help and improve something, often with an offer of possible solutions, in expressing an opinion or reaction

Constructive Criticizing: having or intended to have a useful or beneficial purpose with the intent to help and improve something, often with an offer of possible solutions, when indicating disapproval or expressing a judgement

Constructive Sarcasm: having or intended to have a useful or beneficial purpose with the intent to help and improve something, often with an offer of possible solutions, when there is mocking or conveying contempt

Constructive Judging: having or intended to have a useful or beneficial purpose with the intent to help and improve something, often with an offer of possible solutions, when forming an opinion or conclusion about something or someone

Constructive Viewpoint: having or intended to have a useful or beneficial purpose with the intent to help and improve something, often with an offer of possible solutions, regarding a person's opinion or point of view about something or someone

Constructive Opinion: having or intended to have a useful or beneficial purpose with the intent to help and improve something, often with an offer of possible solutions, regarding a view or judgement formed about something, not necessarily based on fact or knowledge

Note:

“..become a true independent judge of any source of information, armed with the tools to analyze it sharply and clearly....examine information with logic.....These days, information is a flood. There is really no way to pick out the good information by merely relying on the reputation of the author of an article or internet post.....We are faced with an undifferentiated mass of material that would take years to digest—and still we wouldn't be able to catch up.....The solution? Set down principles and strategies for rational discourse. Try to distinguish between valid and invalid argument.....”

purpose of learning to think critically, discovering the truth from within—not just believing things blindly because it came from an "authority" or credible source. Instead of telling you what the truth is, we share information from many sources so that you can discern it for yourself.

"it's about sharing what's happened for others, then offering reflections so that you may find your own way to your own inner gateways. According to

<http://www.thefreedictionary.com/henceforth>

"henceforth" is defined as:

"From this time forth; from now on"

And so from henceforth, equipped with tools, resources, knowledge and wisdom gained, walk a path, pursue or go on a journey of discovering your own truth about you and life.

Please note:

"The truth was a mirror in the hands of God. It fell, and broke into pieces. Everybody took a piece of it, and they looked at it and thought they had the truth."

Jalaluddin Rumi

In discovering the WHOLE truth requires joining the puzzles together.....

Note:

There are wonderful educational, inspiring and motivational beautiful books in the world that adults and adolescents love to read that are for children, or children books that are also intended for adults and adolescents. Hence since it was not

easy to decide where some of the books should be placed in terms of audience category, please do feel free to read any of the books by Para Kas, for there are phenomenal messages that are contained within the children's books that are very invaluable for both adults and adolescents. For all ages.....

Try telling one person in the meeting hall a story, and ask him to repeat it quietly to the next and the next person to the next, until it comes back to you. By the time you hear your original story; it will not even be recognizable.

The Gurdies and Yarra Glen VIC Australia

The Gurdies had Been our Sanctuary in midst of adversity and Yarra Glen Our Sacred Private World for the time that it was meant for; where we Fullfilled what otherwise would not have been possible. Both will forever be Treasured as a Special Private Sanctuary, and the Memories Built there will Be Long Remembered.

As we watched The Gurdies' major transformation from a tranquil with lots of trees becoming very busy with nature disappearing, and sadly unjustifiable adversities forcing us to leave our 'Sanctuary', lead us to follow our next part of our Precious Dreams to Yarra Glen and what a Divine experience and Joy it has been.

Although we have visioned and on the way to be Nestled in the Sacredness of a Special Place far away, where our souls yearn to be for what seems to have been for so long, where the Majestic Nature sing and Thrive so Freely with the birds' Songs, and the Tranquillity so Immense that you can hear the rivers trickling amongst closeness with the rocks. A Heaven on Earth where the Sacredness of Country and Ocean, and Nature all United are thought of and Preserved. Our Precious Treasure.

Through true form of appreciation one find themselves mesmerised to a more deeper, Soul level of knowing how Blessed one is. No worth of the most precious metal on Earth (Gold) could measure close, to comparison, what can only be felt with the Soul of the Heart to form life so Magical. The True Fragrance: to Appreciate and Acknowledge.

The Name

“SÒLANCE VOYAGE”™

SÒLANCE

SÒLANCE was conceived in 2012, inspired upon our travels, by a name ‘Solace’ on a gate (Coast of South Gippsland, Victoria, Australia).

The creation of the word SÒLANCE is a combination of:

The letter N (14) where our interpretation of the alphabetical letter in numerology stands for Love, Comforting, Natural Elements of Healing

and

The significant meanings of the following words:

- **Sòl**
- **Soul**

- **Solar**
- **Solar Master (Guide)**

- **The Sun.**

The word SÒLANCE *’thereafter’ (to our awareness)* is recognised as a word and or name and has become widely used in many forms. This gave a wonderful opportunity to provide further definition and accuracy thus of what we stand for:

“Solance, known ...for.....compassion, wisdom and sense of justice proved time again.....”

<http://scarteleu.wikia.com/wiki/Solance>

“The name of Solance creates a happy, versatile, and expressive nature, with good business

judgement and a fine sense of responsibility, which should enable you to establish congenial relationships in positions of trust where you are dealing with the public. You have a cleaver, quick mind, with the ability to accomplish a great deal in a short period of time..... This name could allow expression along musical and artistic lines and gives you the desire to entertain and to meet and mix with people of refinement and culture. It also brings out your love of home and family, and in close association you are able to show understanding and affection. Others are attracted by your generosity and your consideration of their interests.....”

VOYAGE

*The VOYAGE is **the Journey** itself.*

The Voyage has been undeniably the most unimaginable challenge we have ever encountered. The reason being that upon uniting, Otto and myself, Para, lead us to the most Profound Phenomenal Discoveries, Profound Awakenings, Illuminations, Adventures, Wonderfull Positive Surprises, Gifts and Extraordinary Precious Treasures, Enormous Accomplishments and Immense Deeper Soul Evolution beyond words!!!! Thus, a greater perspective of Fullfillment. A Magical Miraculous Blessing!!!!

The Voyage continues and along the way provides Extraordinary Surprises.

SÒLANCE VOYAGE is Precious to us.

For so many reasons it offers also not only Love, Journey, Surprises..... but also Astoundingly an image of a sailing vintage boat/small ship sailing on the waters far beyond the horizons.....The significance of Great Importance.

Please note: some words that have an ending with 'ful' are not misspelled. I have deliberately spelt them with their ending being 'FULL'. This is to emphasize the importance and **fullness** and thus, Energy of the word. Since I have always associated "full" with complete, I find it at times not easy to read words that end in 'ful' because the mind sees it as incomplete. Although we are starting to learn the truth about the purpose of the English language, hence, its ambiguity and inconsistency in its grammar and spelling, I felt important to ensure the Energy to certain words with the 'ful' at the end of them by spelling them with 'FULL" instead. Examples: beautiful to BeautiFULL, wonderful to WonderFULL, grateful to GrateFULL and so on. Also note that there are words in middle of sentences or paragraphs that start with a capital letter. Again this is not a spelling error. It is to simply accentuate the importance behind the word, its energy or power.

Over 'Astronomical' many years, A lot of effort has been put into writing, creating, editing, proofreading and producing the First Set of Books, "Set 1: The 27 Books". There are some words within books or writings written by Para Kas, that have been intentionally spelt a certain way; or statements or grammar written in a way to try to reduce ambiguity of the English language. However, if you believe there is a correction/s that I may have overlooked, please do feel free to inform me by email: para@solancevoyagegallery.com.au with the URL (link) so I can go direct to the correction you are wishing for me to look at that may possibly need correction. My Beautifull Mother Sofia Kas

Because of you I learnt what the true definition of Determination is. It takes enormous strength, courage and will power, and total devotion to life through all its great trials and tribulations. It sure gives rise to a whole new level the meaning of the word Hope. It brought me to the Truth of the TRUE Definition of Faith. Thankyou for believing in me so much that you were prepared and did so, do everything to save my Precious life that special day I was born, when all the medical department at the time gave up on me. I am most grateful. I am left astounded by How Immigrants let alone Aboriginals were treated in Australia. I am only now starting to learn the truth. I am so dearly sorry by all that you have faced in life. I am so sorry that we were all faced with people that did not know what Love and Respect meant. One thing does remain Love Always Wins I was once told. And I see this happening more and more each moment of my own True life. I pray all the time that you and all my Love ones are protected and kept safe, are Healthy and find True meaning of how to live life. I hope your heart has now found harmony mum. I love you So Much.....

Dr. Marshall Donnelly, Otto Vetter, Professor Peter Kas, and FRAN *A special Honour to you all for your Profound Support. Your Extraordinary determination to ensure those wanting support receive it should be widely recognised. Your support, devotion to helping others astounds me. much about the truth of the wealth of health. Your knowledge and expertise, your help and guidance I am Phenomenally so so gratefull for. You are all worth more than all the most precious elements on earth for all you do for those wanting help!! Bless your Souls!!!!!!!!!!!!!!

Professor Peter Kas *I Absolutely Adore you. You are Precious to me and My Only Brother and I Think the World of You. I Am Always Totally Amazed By the Incredible Devotion to what you do with such Depth of Honour and Intergrity to the Highest Possible Level that I know of. I Am so very Blessed you are in Our Lives. I love you so much and Hold you so Dear to me. You Have done so much for this world. And you have given all you possibly can with such profound dedication to True Essence of Life. We wish the adversities we have faced did not have to be to shape us into who we are today. We wished that life was more harmonious and the lessons that needed to be learnt were more nurturing and more gentle to us. Life I am still learning its Whole concept. However I know this, That all of us know one most Precious element in life and that is that we would do anything for our love ones. We would absolutely do anything because all we want is the best for them and all we want is the best of life. For me Family and Love have become two of the Most Crucial Significance of My Life. And it is through some of the most unfathomable adversities that have lead me to hold on so much more tighter and more deeper into the meaning of Family and Love. I Love you So Much Peter and Only want the best that Life Should Offer you !!!!!!!!!!!!!!!*

Penny Kas *(My Sister and Sister-in-Law) Beautiful Penny Kas, I hope with all my Heart only Good comes to you. Thankyou so much for looking after mum whilst I was on my journey to Discovery, Illumination and Awakening, of fulfilling a journey that was so so precious to my own soul. Thank you for your support and love also. Your devotion is evident in itself. You love numbers and so this book and your idea of what you were searching for, is in the pages of this book to now be embraced by what you wanted for so long. I love you

"Tati" Thank you. I realised one valuable awareness on your 102nd Birthday Celebrated on the 2nd of May of 2013....how Special you are. I would have been Honoured to have known you on Earth. I totally understand the Significance of why Otto grew up in the Depths of the Forest and Surrounding Lake. The Importance of the Need for the World to Understand The Pure Silence, of the Innocence of Nature that needs to be left untouched by Civilization....it is so as to be fully Appreciated and Deeply Respected for what it Trully is as it is Perfect. It is the very core element of Knowledge that you so dearly wanted, and have with Great Success I must say, wanted, to pass on. I can see now why your Son loves you so so much. You showed him the Truth of True Existence of Life and in doing so, you taught him the True Values of Life. In the world that we came to experience watching the changes unfold to its New formed World. The enormous trials and tribulations faced can cause one to lose themselves and for a moment or so forget not only the Truth of their Existence but also the Morals and Values of life. However the Soul never forgets. It knows that some day one will remember again, and that is what is happening right now what is called Awakenings on Earth. I am sure you are smiling and so joyfull of that. And so I know in my own Soul your desire for Forest and Lake, Nature and Pure Silence to Return to its Truth of what they ought to be on Earth, is finally becoming so.....That in itself is a Liberating Joy to Know!! The words that your son Otto speaks of you are the most Exceptional. Thank you for Otto. Thank you for allowing me to fully Understand. I love life.

How many of us when we were young, though many of us still do today, have made a wish upon a shooting star, or held onto a special talisman in hope that it would bring us luck, or looked at a picture of a favourite toy and imagined it to come true? How many of us have made wishes burning a candle and performing magic in hope that that which is for our highest good comes true? Magic such as engraving what we desire on a candle and letting it burn, or writing the name of a

true love in the sands and hope that it unfolds to a deeper loving commitment? How many of us fantasized being the prince or princess and dreaming big, holding onto a favourite object that held such truth, such love, such meaning for us? How many of us have actually performed Magic using some of the most amazing elements in nature, holding them close or leaving them by our bedside, and placing all our wishful energies into them in hope that they come true?

I believe most of us, if not all of us, have done one or more of the above when we were young and even as an adult. Many children, who once were forgotten and abused, are only now starting to be protected again and allowed to dream big; to feel the excitement to believing again.

We are all children at Heart. It matters not how old we are. How wonderful though to be able to allow children to dream again, to believe and to perform magic that is good magic, magic of make believe that often astounds us when they come true. We are left overwhelmed by its miracle.

This book is to give children the opportunity to know that magic is good if we use it for the good of all mankind and Earth. Magic should be used to promote imagination, daydreaming, visualization, to hope and know that miracles and wishes are possible, and that all things for our highest good are of a promise.

Allow the child to dream again. Allow a child to create. Allow a child to perform magic for what a wonderful world to see a child, that once upon a time in the Old World were deprived of their true existence of life, live again.....let them fly, let them create and bring back a world of light. And, set a good example for children to use magic and dream big with love, for in doing so what a wonderful world it would be to be full of love and light Again.

“Awakening the Soul” book

Welcome

12th July 2017

“Art is an expression of my Soul, whether it be drawing, painting, photography or sculpturing. It inspires, motivates, heals, expresses, brings joy, clarity, and is the voice of my Being, my Soul, my Heart, and Mind. For me it also is a form of language from a Higher Source...the Universe.”

For as long as I can remember, I loved writing. I would spend my days and nights writing for hours, poems, storiesI would also spend many hours with my camera taking endless photos, mostly Sunsets with ocean views..... Photography has been a passion of mine for many years. As a Spiritual Healer, the opportunity and potential to capture such a Beautiful moment acts as a re-vitalising agent to my Soul.

When I showed my photos, writings and poems to others, it would spark a start of their own journey onto something their heart and soul yearned for. It brought them just like for me, also hope, inspiration and guidance. This brought about a catalyst that began me on a journey in anticipation and eagerness, to one day produce a book filled with love and light, hope and joy, peace and clarity, wisdom and so much more. Little did I know at the time that I would one night find myself woken to begin that thought so strong. It lead me to begin a journey I never imagined.

We all need love, support, guidance, hope, strength. We all need companionship, laughter, and fulfilled dreams. We all need harmony, peace, and acknowledgement, to freely be able to and with expression of our emotions without fear. I know that I also have an inexplicable desire to always want to connect with Universe/Higher Realms.....

Upon initially embarking on this journey, I honestly either had no idea or was ignorant to want to know that doing so meant facing the deepest awakenings along the way, immense sacrifice, losses and some of the most unjustifiable challenges, and huge lessons too. Many times I wanted to get of the path I found myself on. But remarkably every single time My Heart, My Soul would call to me, reminding me that regardless of all the odds against me from every level for all reasons, to hold onto that desire, that soul depth desire, that soul depth dream. But it was more than those words reminding me. It was this most Extraordinary Powerfull Photo that would stir immense hope, knowingness, harmony, peace and faith within the core of my being that would

draw enormous strength to pull it through. Remarkably on this colored textured paper I am typing on!

Like music, art and words play an extraordinary role in restoring our faith, bringing us hope and light, inspiration and joy to our hearts and our souls. Life is so precious. Once in a while it just takes a few words or some form of art, to inspire and motivate us, to truly help us back on track, to allow ourselves to courageously walk forward in life, to see clearly again. Sometimes a bump on the road causes one to trip, stumble or fall, Universe sends us Angels to just touch our hand, say a warm gesture, a reminder of who we are, to effortlessly jump up so high saying what was that? A stumble? To teach us lessons, to look where we are walking and to help one grow wiser, stronger and lighter.

I don't know why this one particular photo would have such a Profound affect on me. Every single time I wanted to throw the towel in and not complete my passion, the books, because of the heartache along the way, this one photo found a way to fill my whole soul with enormous hope beyond words..... And here I am realizing I am finalizing the last of the first set of 27 books, to which in fact is the first book I began my journey upon

The truth is that I do not remember where and when exactly I took the photo. It was such a very long time ago now. But the photo would always make me feel safe, and fill my Heart with Hope. Somehow it was Home for me..... And it gave me strength to carry on.....Remarkably I think always of the 12 Apostles at Great Ocean Road in Victoria, Australia.

I recall a time when I was living at Flinders, Victoria, Australia, a flash of a past life there. I was sitting on the beach on some rocks and suddenly I saw myself in a very long ancient looking dress, and married to a sailor, and all I can recall is seeing myself living high on a hill with ocean views, and seeing an old ancient sailing ship or boat and the waves in full motion. There is more to the story, but I often wondered about the photo that kept me going, and the flash remembrance of a past life.....

Regardless, the photo has been my hope, my strength, my guidance..... I wonder if finalizing this last book of the first set, that was the first book I first began this journey on, means something significancetime will tell.....(Funnily, everywhere I go I always see signs of ‘The Last Supper - The 12 Apostles’ from the Biblical story. Let’s hope it’s not my last supper on earth in producing to the world the first set of books, fulfilling a Promise.)

May this book bring you a level of peace and harmony into your life and into your heart and soul
as it has for me and those close to me.

Let me be your Inspiration

Let me into your Soul

Let us dream

Let us walk

Hand in hand.

Let me help you,

Let not fear

Step in its way.

I Believe

Let me be your Light

Let no one

Cloud your sight

Follow your Heart

Follow those Dreams

No longer do you have to

Walk alone this path.

I rejoice in your achievements

I cry at your fears

I try to show you many Signs

To reassure

Your yearnings

Are real.

Oh dear soul

Believe all is so

Surrender to the Heavens above

And dream your dreams

That your soul yearns for....

Let it all unfold

For all is all possible.....

Welcome to My new revolution in readings: The hand written 'Divination Journal' readings.

Having invested many years doing 'face to face' and 'phone readings' in the past, I came to realize my love for writing and the great thought in writing readings. It was for this reason that lead to some time ago in emailing readings. Upon trying to return to the face to face and phone readings, I felt the love of doing something 'everyone does' was not creative any more, inspiring and motivational for me. I wanted to do something so different, so unique in the way I do readings. Upon writing a "journal" reading to yet another love one, an epiphany and thus, strong guidance on the night of 16th of October 2017 gave way to a new revolution in how I want to do now readings.

I understand that there are those who are blind or cannot read and would prefer face to face or phone readings. I apologize that I cannot meet everyone's needs.

Although I have accommodated many needs of others in the past, I must also ensure I fully stand true to my own calling of my own heart if I am to perform in an ability that I so dearly resonate well with.

1st December 2017 for "December 2017-February 2018"

1st March 2018 for "March - May 2018"

1st June 2018 for "June - August 2018"

1st September 2018 for "September - November 2018"

1st December 2018 for "December 2018 - February 2019"

I have been for months trying to think what to call this section. I could not for the life of me think of what would describe what I am guided to do on this section of the website. So I thought maybe by calling it "World" Readings it would explain it. Then I realised it would cover an array of Divination tools or elements to guiding. So I then re-titled it The "ULTIMATE" Reading

trying to explain what I am guided to do for this section of the website. Still I was not completely content. It was not until past midnight on the 2nd of November 2017 upon writing that the words were loudly calling me!!!! And it all made sense. Thus, "Universal Language of Life Guidance".

“Sentimental Journey”

The Journey, no matter how you word it, whether you want to call it Soul Searchers, Truth Seekers, Travelers, Nomads (NO mad), or other, has deepened in its reason.

It serves as a **pilgrimage**, ‘a journey or search of moral or spiritual significance’; a phenomenal Soul purpose.

Enriched with experience, it is meant to be for a Higher purpose, not for malevolence intentions.

Such a "Sentimental Journey" can be unexpected, a choice, due to unforeseen circumstances, or as a result of an Epiphany. Once you begin it, it changes you forever and it redefines you. And in the whole process the benefits are Remarkable.

Knowledge, wisdom, illumination, awakenings, discoveries, evolving, growth, insights, awareness, expanding on horizons, advancing on skills, talents, abilities, inventions, virtues of deeper quality, new beginnings, bestowed Blessings, and builds a vast network.

“...There are four goals which philosophy... (1) to know itself; (2) to know its Overself (Soul); (3) to know the Universe;(4) to know its relation to the Universe. The search for these goals constitutes the Quest.”

Paul Brunton

“... there is a Universal Spirit of immense consciousness which both inter-penetrates and transcends the world and all life forms within it... 'an ethereal body of primordial universal light' from which everything is generated and to which everything ultimately returns and that the human spirit possesses in itself the revelation of this truth. Behind all of the religions and spiritual belief systems of antiquity - there has been this 'perennial philosophy'. It is an 'esoteric'

philosophy - meaning it is the study of the *essential* nature and interrelationships between all aspects or expressions of existence.....”
