

Quick Major Cosmic Energy Update!

– By Dr. Schavi M. Ali.

A New Now

“With the “Super Full Moon Eclipse” occurring in a few days on May 26th, and with the height of the Mercury Retrograde happening from May 29th to June 22nd, and with the “Total Solar Eclipse” on June 11th (or 12th according to time zones), and with Saturn retrograding for five months beginning on June 2nd, and with the Vibrational Frequency and amplitude (“Power”) of Earth/Gaia fluctuating daily— cosmic energetics are magnified in intensity.

Pleiades

Also, from May 17th to May 22nd, the “Pleiades” star system is in alignment with the Sun of our galaxy which is bringing in powerful LIGHT codes that are offering elevated levels of consciousness and healing currents.

The potency of this alignment will last throughout the spring and summer in the Northern Hemisphere (or autumn and winter in the Southern Hemisphere).

This alignment will occur again in November. The “Pleiades” is comprised of thousands of stars, but of this massive number, seven of them are intensely bright and are known as the “Seven Sisters”.

They are surrounded by a blue plasma-like haze.

These stars were created by SOURCE approximately 175 million years ago and are 440 light years from our planet.

The alignment is occurring in the northwestern sector of the constellation of Taurus.

With all of this energy streaming throughout our galaxy and into our planet, many people are experiencing feelings of anxiety, profound fatigue, difficulty sleeping at night, back and neck pain, dizziness, and a strange sensation of being stirred-up in their nervous systems as if they are in an emergency situation—as if they are awaiting some exciting news.

Constant reassurance of what is occurring is seemingly becoming increasingly necessary.

Whenever such a “Cosmic Energy Conference” is happening and planets are “meeting” with a serious “agenda” like what is described above, human physical vessels, mental states, and emotional settings are roused-up and amplified.

Humanity questions what is occurring around them relative to rules, regulations, laws, and even a questioning of spiritual messages which seem to be filled with fantasy as if some talented writers, directors, and producers have created a very interesting science fiction movie or television program.

It is time for a re-stating of what is being discussed by many Scientists and Mystics—this is a “NEW NOW”.

Cosmic Energy Conference

Although we enjoy old science fiction movies and television shows for their scripts and special effects, much of what they brought to us, whether the writers, producers, directors, actors, or actresses realized it or not, was in many ways a message about the truth that was to come.

THERE ARE OTHER LIVES OTHER THAN ON EARTH/GAIA and THEY ARE IN COMMUNICATION WITH VARIOUS SCIENTISTS, LEADERS, and MYSTICS OF THIS PLANET.

There is nothing new in this.

This has been occurring for thousands of years, and ancient scriptures have revealed this.

However, most people choose to ignore what they cannot process logically or resonate with from the perspective that everything that happens must have a clearly understandable reason.

Heads up! SOURCE IS LOGICAL! SOURCE HAS PLANNED THE “NOW”.

LIGHT is literally zooming to our planet with such intense velocity that the space/time continuum is rapidly moving like a ship at warp speed.

We are being allowed a different level of consciousness—a new dimension—of our own choosing as the planet and the entire galaxy, as has been discussed previously, soars through the Photon Belt.

A New Now

We will eventually acclimate to the “NEW NOW”, but it will take some “time” in the human perspective of time sequencing.

However, the message is to not delay in connecting to the HIGHER SELF for knowledge and guidance because it holds the key to “grounding” and releasing all that is not serving individual or collective elevation.

Old emotional trauma issues, for example, which have held (and do still hold many) people captive in terms of wanting revenge for perceived oppressive circumstances must end.

In truth, most often people attract the experiences that are festering as electrical and magnetic vibrational frequencies of thought and emotion within themselves—“As within, so without.”

Thus, think LOVE and think PEACE, then this will attract LOVING circumstances and PEACEFUL existence.

The LIGHT codes coming in are, to employ an oxymoron, “forceful invitations” for everyone to work on their individual thoughts, feelings, and behaviors so that a domino effect befitting the character of a “New Golden Age” is real and not merely a play that is created for brief amusement.

Whatever level of consciousness people choose to have—low and lacking in knowledge or high and continuing to receive Divine wisdom, all of creation is becoming different from its initial beginning “artform”.

DNA is being reformulated; cellular records are being cleared out and new ones provided; every molecule and atom is being re-made. A new “prana” (“life force”) is being breathed into us by “Sacred Winds”.

The symbolic reminders of this process are these: think of an initiation hazing or a labor of re-birthing.

These are not fun, and nobody wants to delve into these experiences on a regular basis; but this is indeed what we are doing because the cleansing and clearing **MUST happen.**

Continuing To Receive Divine Wisdom

We MUST be made new in order to adjust to the “NEW NOW”.

So, eat fresh veggies and fruits; drink lots of spring water; engage in your spiritual rituals according to your path; wear sacred and calming healing crystals and gemstones; rest and relax as best as you can.

Yes, all of this has been stated numerous times.

However, the cosmos is sending its energetics constantly too. Perhaps they are constant reminders of what is coming.

Thus, we must constantly remind each other of what is coming too— a CRYSTALLINE world of LIGHT.

Your LIGHT ACTIVATION SYMPTOMS (LAS) are revelations.”
